Visitors Present: Lesley Murphy, PFM Asset Management, LLC.
(3) **Ratification of Previous Actions by the Auditor-Controller**

(a) **Staff Report**

In a memorandum to the Committee, Auditor-Controller Joseph Wire and General Manager Denis Mulligan reported on the commitments, disbursements and investments made on behalf of the District. The report included a copy of the District’s “Investment Report” for December 2019 from PFM Asset Management, LLC (PFM). A copy of the staff report is available on the District’s web site or upon request from the Office of the District Secretary.

At the meeting, PFM Senior Managing Consultant Lesley Murphy summarized the Investment Report. She noted the U.S. Treasury yield curve steepened again in the month of December signaling a return to normalization. She stated recession fears are subsiding. Economists and consumers are optimistic due to the un-inverted yield curve, strengthening of job markets and positive developments in the ongoing trade war with China. She also stated U.S. manufacturing indicators continue to diverge causing it to be an area of concern and PFM will monitor this area.

Ms. Murphy noted that in December short-term security yields fell while intermediate- and long-term yields increased. PFM took advantage of the relatively attractive pricing to identify and purchase several 3- to 5-year U.S. Treasury notes, high quality negotiable bank CDs, and Corporate notes.

Ms. Murphy said that PFM puts a priority on maintaining the safety and credit worthiness of the District’s portfolio. She also confirmed the District’s portfolio is in compliance with Board policy and the law, and is well-diversified.

(b) **Discussion by the Committee**

Vice Chair Fredericks observed the job market reports do not differentiate between lower income and higher income employment improvements. She asked if there are any numbers identifying where jobs are being added, and the corresponding impact to disposable incomes and consumer spending changes. She also asked if the income metric is taken into consideration in market and economy forecasts. Ms. Murphy responded that there has been a lot of commentary about where jobs are being added, but she is not aware of any income metrics that assess if the jobs being added are high or low earner jobs. She added wage disparity between lower, medium and high wage earners continues to grow. She noted that lower and medium earners are being squeezed especially in terms of wage growth. The lower and medium wages have been ticking up, but not as quickly as would be expected in light of the low unemployment rate. She said she would research further and report back at a later date.

(c) **Action by the Committee**

Staff recommended and the Committee concurred by motion made and seconded by Directors COCHRAN/MOYLAN to forward the following recommendation to the Board of Directors for its consideration:

(4) Authorize Budget Adjustment(s) and/or Transfer(s)

(a) Budget Increase and Increase in the Contracts Amount Relative to Contract No. 2018-D-096, Grants Management Professional Services

(i) Staff Report

In a memorandum to the Committee, Capital and Grants Programs Director Amy Frye, Auditor-Controller Joseph Wire and General Manager Denis Mulligan reported on staff’s recommendation for authorization of a budget increase in the amount of $200,000 relative to Contract No. 2018-D-096, Grants Management Professional Services in order to fund additional on-call grant development and professional support services. A copy of the staff report is available on the District’s web site or upon request from the Office of the District Secretary.

(ii) Presentation by Staff

At the meeting, Ms. Frye reviewed the staff report.

(iii) Discussion by Committee

President Pahre inquired if the action would extend the contracts or amend the amount of money staff is allowed to spend each year. Ms. Frye responded that the contract term is three years with two additional one-year options that will remain unchanged.
Ms. Frye further remarked that the recommendation is to increase the amount staff is allowed to spend for the third year to $200,000, which increases the contract's not-to-exceed amount from $365,000 to $575,000. If one or both of the option years are exercised, staff must return to the Board to request additional funds.

Staff recommended and the Committee concurred by motion made and seconded by Directors MOYLAN/COCHRAN to forward the following recommendation to the Board of Directors for its consideration:

(iv) Action by the Committee

RECOMMENDATION

The Finance-Auditing Committee recommends that the Board of Directors authorize a budget increase in the amount of $200,000, with a corresponding increase in the contracts amount, relative to Contract No. 2018-D-096, *Grants Management Professional Services* in order to fund additional on-call grant development and professional support services.

(5) Authorize Actions Related to Grant Programs

No actions required authorization.

(a) Staff Report

In a memorandum to Committee, Auditor-Controller Joseph Wire and General Manager Denis Mulligan provided schedules and charts for informational purposes only and no action is recommended. A copy of the staff report is available on the District’s web site or upon request from the Office of the District Secretary.

(b) Presentation by Staff

Mr. Wire reviewed the staff report. He highlighted the slow reduction of vehicles crossing over the bridge over the last two years, and he noted the trend is ongoing. He said there is still no clear explanation for the trend. He added that while the District is seeing less vehicle crossings, toll revenue is up due to the recent toll increase. He pointed out that both bus and ferry passenger numbers show a similar trend over the last six months and revenue is also up due to the recent fare increases.
[Directors Belforte, Sears and Arnold arrived. With their arrival, the Committee became a Committee of the Whole.]

(c) **Discussion by the Committee**

Director Belforte asked if the decreased bridge and bus numbers have been isolated to commute days or spanned over all seven days of the week. She also asked if Sonoma-Marin Area Rail Transit (SMART) could be contributing to the loss of bus riders. Mr. Wire said it has been a while since he has looked at the data for bridge vehicle crossing, but his recollection was the reduction is occurring over all seven days of the week. He said he would review the data looking at all three divisions and report back at a later date. He noted that the Sausalito ferry riders are primarily non-commuters paying the cash fare, which is higher than the Clipper fare and contributes to the higher ferry revenue. He said there was no noticeable reduction due to SMART but that may change in the future if their routes begin to compete directly with the District’s Highway 101 bus routes.

Director Belforte noted that the number of airline passengers flying out of Sonoma County Airport has risen to 500,000 annually, and as a result, these plane passengers are no longer crossing the Golden Gate Bridge to travel to the San Francisco International Airport. She said as the Sonoma County Airport continues to grow, local officials forecast passenger numbers will also grow. She suggested that the Sonoma County Airport passenger growth may be a noticeable contributor to the reduction in Bridge crossings. Mr. Mulligan stated that the Bridge vehicle crossings are also being driven by changing travel patterns as a result of increases in telecommuting and job locations. He also noted that the Sonoma County’s population and housing stock reductions due to the catastrophic fires remain a significant factor in the reduced vehicle crossings.

Director Hill asked if the Metropolitan Transportation Commission (MTC) is doing any studies to look at Bay Area traffic pattern changes. Mr. Mulligan said MTC has hired University of California at Los Angeles researchers to look at the Bay Area traffic pattern changes. He noted the focus appears to be on individuals coming into San Francisco, most of which originate from the East and South Bay and not the North Bay. District staff is actively participating and contributing data to the study. A presentation of the study results to transit general managers is expected to be scheduled soon.

(a) **Statement of Revenue and Expenses**

In a memorandum to Committee, Auditor-Controller Joseph Wire and General Manager Denis Mulligan provided financial statements for informational purposes only and no action was recommended.

Mr. Wire said the reduction expected in toll revenue has been offset by a slight increase in investment returns. He pointed out that expenses are considerably less than expected due primarily to staffing positions, which are budgeted but unfilled. Overall both revenue and expenses are on track.
(b) **Statement of Capital Programs and Expenditures**

In a memorandum to Committee, Analyst of Capital and Grant Programs Clifford Duong, Director of Capital and Grant Programs Amy Frye, Auditor-Controller Joseph Wire and General Manager Denis Mulligan provided financial statements for informational purposes only and no action was recommended.

Mr. Wire reported that Capital Expenditures are on track at 41% with the Suicide Deterrent System (SDS) project spending less than expected. However, the decreased spending for the SDS project is balanced by ferry maintenance project spending, which is faster than expected.

Copies of the reports for Item Nos. 7.a. and 7.b. are available on the District’s web site or upon request from the Office of the District Secretary.

(8) **Review of the District’s FY 19/20 Second Quarterly Report of Judgments or Settled Claims**

In a memorandum to the Committee, Director of Risk Management and Safety Kelli Vitale, Deputy General Manager/Administration and Development Kellee Hopper, Auditor-Controller Joseph Wire and General Manager Denis Mulligan provided the Second Quarterly Report of Judgments or Settled Claims covering the period of October 1, 2019 through December 31, 2019.

The report is for informational purposes only and no action is recommended. A copy is available on the District’s web site or upon request from the Office of the District Secretary.

Mr. Manolius said the list appears longer than usual because smaller general liability claims, such as rear view mirror damage claims, have been added.

(9) **Review of the Auditor-Controller’s FY 19/20 Second Quarterly Report on Authorized Budget Adjustments and Budget Transfers Under the General Manager’s Authority**

In a memorandum to the Committee, Analyst of Capital and Grant Programs Clifford Duong, Director of Capital and Grant Programs Amy Frye, Auditor-Controller Joseph Wire and General Manager Denis Mulligan provided a report entitled, Review of the Auditor-Controller’s FY 19/20 Second Quarterly Report on Authorized Budget Adjustments and Budget Transfers Under the General Manager’s Authority covering the period of October 1, 2019 through December 31, 2019.

(b) **Discussion by the Committee**

Director Cochran asked who would receive the $2,000 penalty for not having health care coverage in California. Ms. Malenka responded the penalty would go into the California General Treasury.

Director Hill asked whether there is any kind of firewall between Amazon the retailer and the Amazon, Berkshire Hathaway and JP Morgan Joint Venture as it relates to the gathering of personal information. Mr. Bell said there are extensive existing privacy laws and a constant expansion of those laws related to how the data can be used.

President Pahre commented that Mercer must be part of the industry groups and can use its voice to influence reforms. She asked how Mercer determines its policy statements and platform. Mr. Bell said Mercer is very active in industry groups and has a macro view based on the general needs of its client base. If a specific client has other or opposing goals, Mercer will work with them to modify their plan to best serve their specific goals. Ms. Malenka added that the presentation statements related to political stalemates and legislative activities are informational only and do not represent Mercer’s interest or platform. Mr. Mulligan added the District hires Mercer for securing benefits for its employees and not lobbying services.

Director Hill asked if there is a definition for “affordable care” when the Affordable Care Act (ACA) does not cover many services. Mr. Bell said he doesn't believe there is a true definition. At this time ACA is more of a slogan and not distilled down to a practical definition.
