Subject: Golden Gate Bridge, Highway and Transportation District, San Francisco, CA
Annual Comprehensive Financial Report

We are pleased to present the Annual Comprehensive Financial Report for the Golden Gate Bridge, Highway and Transportation District (District) for the fiscal year ended June 30, 2026. This transmittal letter provides a summary of the District's finances, services, achievements, and economic prospects for readers without a technical background in accounting or finance. Readers may refer to the Management's Discussion and Analysis portion of the Financial Section of this report, beginning on page 21 for a more detailed discussion of the District's financial results.

Management assumes sole responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge, we believe this report to be complete and reliable in all material respects. To provide a reasonable basis for making this representation, we have established a comprehensive system of internal controls designed to protect the District's assets from loss, to identify and record transactions accurately and to compile the necessary information to produce financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not exceed the likely benefits, the District's internal control system intends to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement.

The District's financial statements have been audited by Eide Bailly LLP, Certified Public Accountants. The firm is based in Menlo Park, CA, and is licensed to practice in the State of California. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal years ended June 30, 2025 and June 30, 2026, are free of material misstatement. The auditor expressed an opinion that the District's financial statements are fairly stated in all material respects and in compliance with accounting principles generally accepted in the United States of America. This conclusion is the most desirable and is commonly known as an "unmodified" opinion. Financial statements and the auditor's opinion can be found in the Financial Section of this report, which commences on page 18.

The District is also required to undergo an annual Single Audit in conformity with the provisions of the audit requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The results of this audit, including findings and recommendations, if any, can be found in the separately issued Single Audit Report.

Profile of the Agency

On December 4, 1928, the District was incorporated as a special district of the State of California as the entity established to design, construct, finance, and operate the Golden Gate Bridge. The District was created under the Bridge and Highway District Act of 1923 and is subject to regulation under this Act, as amended. A 19-member Board of Directors (Board) sets policy for the District. Board members represent the counties of Marin, Sonoma, Del Norte, the City and County of San Francisco, and portions of Napa and Mendocino counties.

On November 10, 1969, the State of California legislature passed Assembly Bill 584 authorizing the District to develop a transportation facility plan for implementing a mass transportation program in the Highway 101/Golden Gate Corridor as a means of managing traffic congestion across the Bridge as traffic levels had reached capacity. The mass transportation program was to include any and all forms of transit, including ferry transit. At that time, the word “Transportation” was added to the District name to indicate its new commitment to public transportation.

Since 1970, the District has maintained and operated three service-oriented divisions: Golden Gate Bridge (Bridge) which opened to traffic on May 28, 1937, Golden Gate Ferry (GGF) which launched its first vessel on August 15, 1970, and Golden Gate Transit bus service (GGT) which began regional service on January 1, 1972. An administrative division supports operations and includes functions such as finance, information systems, customer relations, environmental health and safety, human resources, planning, and marketing. The District employs 753 employees, a slight decrease from 768 in FY 2024/2025.

The District is unique in the San Francisco Bay Area in that its operations and administration are not supported by direct sales tax measures or dedicated general funds. Primary sources of revenue are derived from the operation itself (Bridge tolls and transit fares), supplemented by government grant programs, investments and capital contributions, along with limited revenue programs such as transit advertising, concessions, and leases. The District’s FY 2025/2026 programs and services were based upon an adopted Operating Budget of $294 million and an adopted Capital Budget of $154 million.

Financial Condition of the District

Local Economy

The San Francisco Bay Area’s economic indicators are still not back to pre-pandemic levels, especially as it relates to core downtown office vacancy rates, which impacts the District’s business model. Downtown San Francisco commute workers represented the largest demographic of District crossings and ridership pre-pandemic. Due to this, ridership and bridge crossings, when compared to pre-pandemic levels, are still below this benchmark, though crossings and ridership continue to trend upward slowly:

- 17.1 million vehicles crossed the Bridge southbound (up 0.2 million from FY 2024/2025).
- 1.8 million customers rode Golden Gate regional buses (up 0.3 million from FY 2024/2025).
- 1.7 million customers rode Golden Gate ferries (up 0.1 million from FY 2024/2025).

Recreational and tourism travel has returned while commute travel continues to lag. Bus and Ferry ridership remain at levels less than half of their pre-pandemic ridership, while Bridge traffic is more than 15% below pre-pandemic levels. However, travel in the Golden Gate Corridor is slowly trending upward. Bridge traffic increased 2%, bus ridership is up 9% and Ferry ridership 23%.

Given the state of downtown San Francisco, demand for Bridge, bus and ferry travel during commute periods remains depressed. In response, the District is offering significantly less express commute transit service as compared to pre-pandemic levels while maintaining regional bus service for mobility and equity and ferry service for recreation and tourism. Today, during the morning commute, Bridge traffic is down by about 23 percent below normal. Not surprisingly, the absence of commute travel creates fiscal challenges for the District.

The local and statewide economy also impacts the District's finances. The U.S. Bureau of Labor Statistics shows that California's unemployment rate for June 2026 was 5.2%, which is a minimal decrease of 5.5% from June 2025. The local unemployment rate was 4.2% in June 2026.

There are still 150,000 fewer people in downtown San Francisco each weekday as compared to pre-pandemic. In downtown San Francisco, the office vacancy rate is close to 40 percent, and the amount of vacant office space is greater than 20 Salesforce Towers.

Tolls are the District's largest source of revenue, fully funding Bridge operations while serving as the principal funding source for our bus and ferry service. Transit fares are our second largest source of operating revenue. Fewer customers mean less revenue for the District.

Fortunately, the District has been able to significantly reduce transit expenses by offering less commute transit service. We are currently operating about 20 percent of our pre-pandemic express commute bus service while maintaining our regional bus service, which has returned to pre-pandemic ridership.

Today, through attrition, the District has fewer staff, which has reduced expenses. For example, the District currently employs about 100 fewer bus operators than it did before the pandemic. Recognizing that we are in the customer service business, the District continues to add back bus and ferry service incrementally as customers return to traveling in the Golden Gate Corridor.

Long-Term Financial Planning

As noted above, the District has limited funding sources that include tolls, transit fares, government grants, and revenues from advertising, concessions and leases. To develop financial strategies to sustain its services and operations, the Board adopted a Financial Plan for Achieving Long-Term Financial Stability (Plan) in October 2002, which was redone in 2009 and then again in 2014. The Board of Directors undertook a strategic planning process in 2023 that was completed in May of 2024 with the Board approval of the 2024 Strategic Plan. The Plans encompass and reflect the following:

- The findings of the Five- and Ten-Year Projections (Projections) which are prepared annually following the adoption of the annual budget. The Projections serve as a target for the setting of fiscal policy as they incorporate previously enacted policies and programs and demonstrate the District's fiscal status.

- The data in the Short-Range Transportation Plan (SRTP). The SRTP is updated periodically, with the most recent edition covering the period of 2022–2028. The development of the SRTP is the principal process for creation and modification of the District's transit service goals, objectives, measures, and standards.

- The District's Mission Statement: The mission of the Golden Gate Bridge, Highway and Transportation District is to provide safe and reliable operation, maintenance, and enhancement of the Golden Gate Bridge and to provide transportation services, as resources allow, for customers within the U.S. Highway 101 Golden Gate Corridor.

- The District's Strategic Plan ensures that both revenue enhancements and expense reductions initiatives are identified for consideration, evaluation, and public input, with expense reductions focused on efficiencies in services rather than the elimination of services.

Major Initiatives

FACING FISCAL HEADWINDS

Travel in the Golden Gate Corridor - by Bridge, Bus and Ferry – continues to trend upward year over-year but remains below pre-pandemic levels. While recreational and tourist travel have mostly returned, commute travel has not.

Today, during the morning commute, Bridge traffic is down about 23 percent below pre-pandemic levels. Toll revenues fund Bridge maintenance and operations, with surplus toll revenue providing the principal funding source for our bus and ferry service that removes thousands of cars from the Bridge, Highway 101 and the streets of San Francisco every day. Less commute traffic corresponds to less toll revenue available for our transit services.

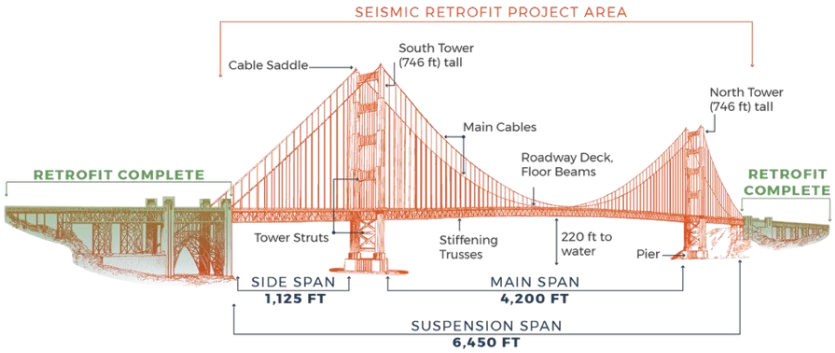

The District's finances are thus tied to the success of downtown San Francisco. Today, over 30 percent of all office space in downtown San Francisco remains unleased. In response, the District continues to aggressively reduce expenses, including offering less commute transit service. For example, we are currently operating about 20 percent of our pre-pandemic express commute bus service.

The District has also taken steps to reduce fixed costs. For example, the District has reduced staffing through attrition, and the District currently employs about 40 percent fewer bus operators than it did before the pandemic.

Recognizing that we are in the customer service business, the District has been adding back bus and ferry service incrementally as customers return to traveling in the Golden Gate Corridor. However, the District is currently spending one-time COVID relief funds to maintain current transit service levels. That glide path ends when the last of the one-time funding is spent in the fall of 2026.

Absent a return of commute Bridge traffic and associated toll revenues, the District will face a deficit in the upcoming fiscal. A deficit budget requires spending down District reserves that have been set aside over many years for capital projects, such as the Golden Gate Bridge seismic retrofit. A limited, short-term spending of District reserves is an appropriate strategy while we await the renaissance of downtown San Francisco and the return of Bridge commuters. However, if San Francisco's recovery is delayed, Bridge traffic stagnates, and/or absent additional revenue, the District will need to revisit current bus and ferry service levels.

The District is committed to providing transit service in the Golden Gate Corridor and will not abandon bus and ferry service while addressing its financial challenges. The District may, however, need to scale back bus and ferry service, with service prioritized to remove the maximum number of vehicles from the Golden Gate Bridge without spending District reserves on transit operations in future years.

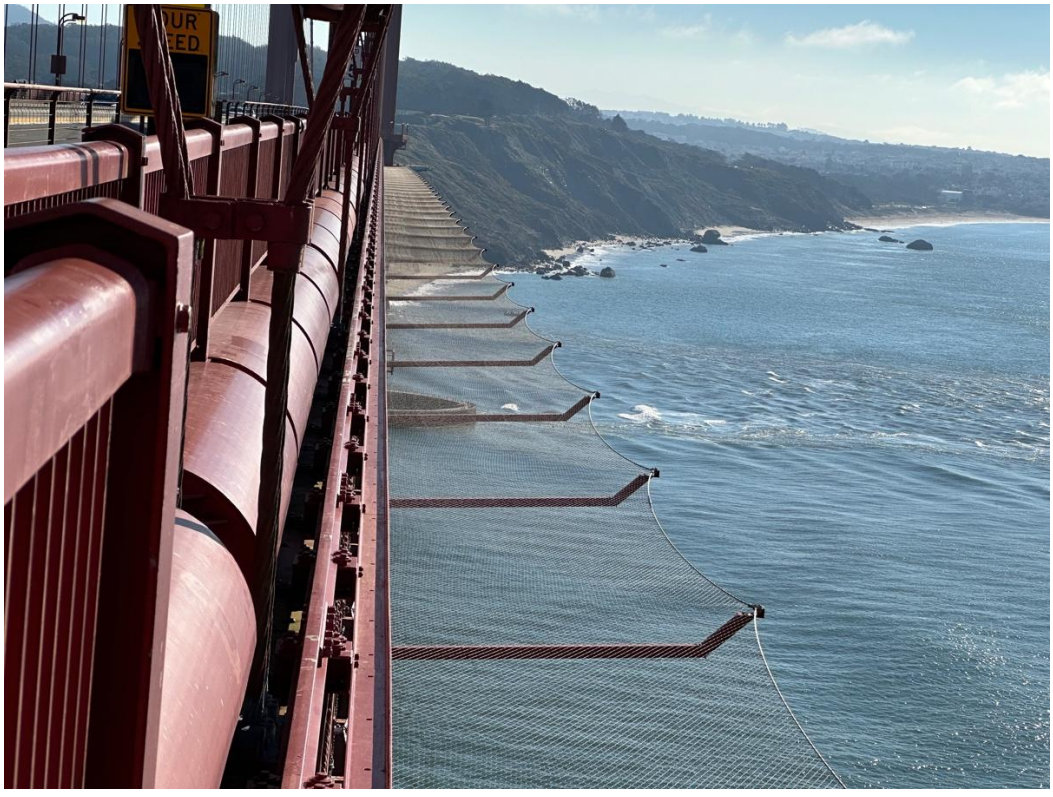

Shown: One work area for the seismic retrofit project

Golden Gate Bridge Seismic Retrofit Construction Underway

The District's first priority is maintaining and protecting the Golden Gate Bridge. In late 2025, the District awarded the Golden Gate Suspension Bridge Seismic Retrofit, Contract 1 – North and South Towers and North and South Side Spans. The final phase of the seismic retrofit is a $1 billion undertaking that is three times larger than any construction contract ever awarded by the District. The Notice to Proceed was issued to the construction contractor in January 2026, and construction is expected to last about six years.

Work includes, among other things: strengthening the main towers; installation of 28 solid-state Energy Dissipation Devices, retrofitting wind locks and rocker links, strengthening the stiffening trusses, replacement and retrofit of lateral bracing and longitudinal struts, and painting the South Tower above the roadway. Construction of the seismic retrofit will employ hundreds of highly skilled union workers across the building and construction trades.

The project funding includes a $400 million discretionary federal grant from the Federal Highway Administration's (FHWA) Bridge Investment Program (BIP) and $200 million in FHWA formula funds from Caltrans Local Highway Bridge Program (HBP). Bridge tolls (District reserves) provide $415 million, or about 40 percent of the total funding, protecting the Bridge for future generations.

Saving Lives at the Golden Gate Bridge

Since January 1, 2024, the Golden Gate Bridge has had a continuous physical suicide barrier (Net) installed the full length of the 1.7- mile-long Bridge. The purpose of the Net is to reduce the number of deaths by individuals jumping off the Bridge. The Net is a proven design that deters people from jumping, serves as a symbol of care and hope to despondent individuals, and if necessary, offers people a second chance. Calendar year 2025 saw an 87 percent reduction in deaths at the Golden Gate Bridge as compared to the average yearly deaths for the 20 years prior to the construction of the Net.

Golden Gate Bridge Maintenance

The District continues to operate and maintain the Bridge, which is essential for the community. Most importantly, Bridge Security staff continue to protect the Bridge and remain vigilant in their suicide intervention efforts on the Bridge sidewalks. Maintenance projects in FY 25/26 included continued work on steel orthotropic deck repainting, installing clips on the west sidewalk railing to reduce wind noise, replacing pedestals under the roadway, replacing aged heating, venting and air conditioning (HVAC) units, installing pedestrian and bicycle counters on Bridge sidewalks, remodels of multiple trailers and offices at and around the Administration Building, installation and replacement of cameras throughout the District, replacement of air hoses underneath the Bridge, asphalt repairs on the Bridge roadway, and assisting other divisions with maintenance requests.

Marin-Sonoma Coordinated Transit Service (MASCOTS) Plan

Travel in the Redwood Empire has evolved over time, particularly after the COVID-19 pandemic and with the advent of SMART. Recognizing this reality, the District embarked upon an effort with other transportation agencies to look at all bus, rail and ferry service connecting Sonoma, Marin and San Francisco as if it were all operated by one company. The effort looked to redesign and redeploy transit service consistent with this integrated approach.

The result is the Marin-Sonoma Coordinated Transit Service (MASCOTS) Plan, which was created to grow ridership and improve the effectiveness of public transit services offered in the Highway 101 corridor. This is a collaborative project among nine transit and funding agencies to create a more connected, frequent transit network. MASCOTS service changes were implemented in April 2026.

For the District, the MASCOTS Plan responds to both new travel patterns and looming fiscal challenges. Through MASCOTS, the District has redeployed limited transit resources to areas with the highest ridership potential while improving service and customer experience along the Highway 101 Corridor through regional coordination with our transit partners. Thus far, MASCOTS has brought an increase in Golden Gate Transit ridership while reducing operating expenses.

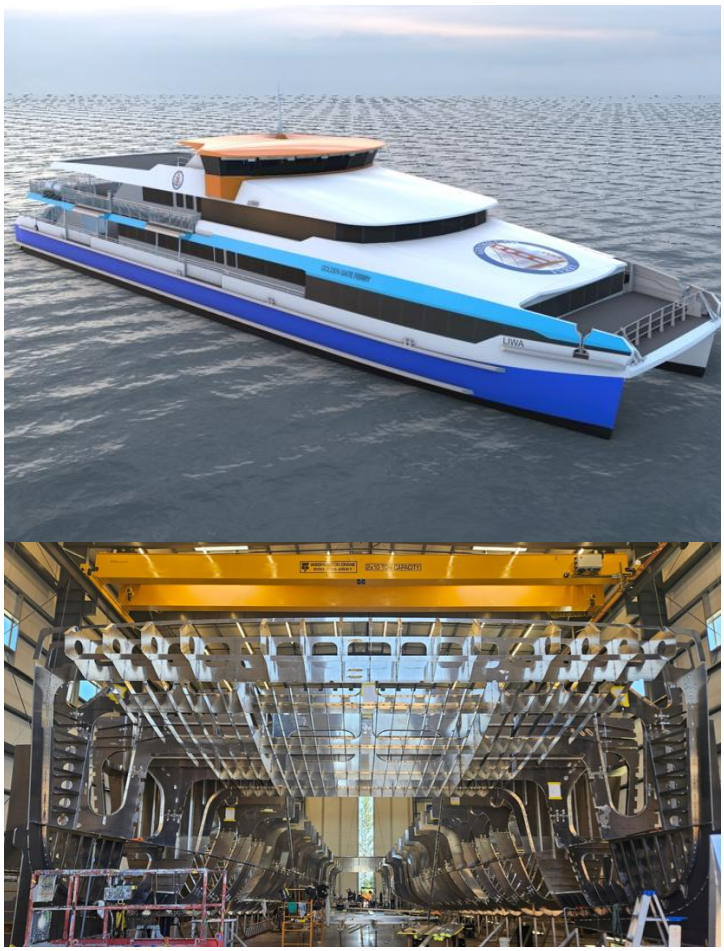

San Rafael Transit Center Relocation Project

The San Rafael Transit Center is Marin County's busiest regional transit hub, serving 9,000 daily trips. The Transit Center connects various local, regional, commuter and airport transit services and is where buses connect East Bay riders to the North Bay, providing key access to jobs in Marin and Sonoma, as well as access to jobs in San Francisco for residents from throughout the North Bay counties.

The District is coordinating with the City of San Rafael, Marin Transit, the Transportation Authority of Marin, SMART and various community-based organizations to replace the existing Transit Center with a new facility that will ensure a first-class customer experience for people riding and transferring between the train and local and regional bus trips. The new SRTC will also provide improved street access and connectivity along with safety improvements for the public and employees.

The Final Environmental Impact Report has been completed for the SRTC in accordance with the provisions of the California Environmental Quality Act and was certified by the District's Board of Directors in December 2022. The District has conducted 11 community engagement meetings to inform the preliminary engineering, which was completed in 2025. Once federal environmental review is complete, the project will advance to final design and property acquisition.

Additionally, in February 2026, the Federal Transit Administration (FTA) formally notified the District that it was the recipient of a discretionary grant for $25.6 million for the relocation and replacement of the SRTC. The SRTC was one of 34 projects in 19 states and Puerto Rico receiving funding from FTA's nationwide Bus and Bus Facilities grant program and was the third-largest award for the 2026 cycle.

Golden Gate Ferry Fleet Replacement Underway

While the District works to reduce operating expenses, we are also taking advantage of grant funding to improve our bus and ferry service in the near and long term. For example, the District's current fleet of seven ferry boats was built between 1976 and 2001. At its November 2025 meeting, the District's Board of Directors approved a contract to purchase two new ferries as part of a long-term fleet replacement program. The contract is 88 percent grant funded with 12 percent coming from tolls (District reserves).

The two ferries currently under contract represent the initial phase of the District's fleet replacement program and will replace the MV Del Norte and MV Mendocino, two high-speed vessels that are more than 25 years old and scheduled for retirement within the next three years. Each new ferry will carry up to 500 passengers, operate at speeds exceeding 35 knots, consume 1/3 less fuel, meet the latest California Air Resources Board (CARB) emissions standards, significantly reduce nitrogen oxide and particulate matter emissions, and support U.S. manufacturing and shipbuilding. The first new vessel is expected to be in service in 2028.

San Rafael Bus Parking Lot Solar Installation

Another grant funded project that will reduce operating costs is the San Rafael Bus Parking Lot Improvements and Solar Panel Installation Project. The large-scale solar installation went online in spring 2026 and provides about 850 kilowatts (kW) of electricity at our San Rafael Bus Facility. This project was 80 percent grant funded with 20 percent coming from District reserves.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for the fiscal year ended June 30, 2025. This is the nineteenth consecutive year that the District has achieved this prestigious award. To be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has also been awarded GFOA's Award for Distinguished Budget Presentation for the fiscal year beginning July 1, 2025. This is the twentieth consecutive year the District has received this award.

Grateful acknowledgement is made to the entire staff of the Finance Department and the Marketing Department, as the preparation of this report would not have been possible without the efficient and dedicated services of these staff members.

Special appreciation is also expressed to the entire Board of Directors, the Executive Management Team and all District staff who remain steadfast to the District's mission of providing safe and reliable services.

Sincerely,

Denis J. Mulligan

District Organizational Chart

District Mission

The mission of the Golden Gate Bridge, Highway and Transportation District is to provide safe and reliable operation, maintenance and enhancement of the Golden Gate Bridge and to provide transportation services, as resources allow, for customers within the US Highway 101 Golden Gate Corridor.

1. Figures provided are reflective of actual amounts for Fiscal Year (FY) 2025-2026 per the District's Adopted FY 2026-2027 Budget. They are not representative of GAAP audited financial statement amounts per this Annual Comprehensive Financial Report (ACFR).
2. The capital funding shortfall is funded by revenues designated for capital projects by the Board of Directors in past years.
3. In FY 25-26 there was a change in ridership data collection for Golden Gate Transit.
4. The Board of Directors designated up to $21.0 million in operating revenues to fund future capital projects; any excess of expenses over revenues is funded from accumulated Unrestricted Net Position. Please refer to the District's Supplementary Schedule of Revenues and Expenses by Division (unaudited Non-GAAP basis) for all District designations.

Independent Auditor's Report

The Board of Directors of the
Golden Gate Bridge, Highway & Transportation District
San Francisco, California

Report on the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and fiduciary activities of the Golden Gate Bridge, Highway & Transportation District (District) as of and for the years ended June 30, 2026 and June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the District, as of June 30, 2026 and June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in the Net Pension Liability and Related Ratios and Schedule of Contributions – CalPERS, the Schedule of Changes in the Net Pension Liability and Related Ratios and Schedule of Contributions – GGTAR, the Schedule of Changes in the Net OPEB Liability and Related Ratios and Schedule of Contributions – OPEB and the Schedule of MEBA and IBU Pension Contributions, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Supplemental Schedule of Revenues and Expenses by Division (Non-GAAP Basis) and the Reconciliation of the Supplemental Schedule of Revenues and Expenses by Division (Non-GAAP Basis) to the Basic Financial Statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Schedule of Revenues and Expenses by Division (Non-GAAP Basis) and the Reconciliation of the Supplemental Schedule of Revenues and Expenses by Division (Non-GAAP Basis) to the Basic Financial Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and the statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 12, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) FOR THE YEARS ENDED JUNE 30, 2026 AND 2025

This financial report is designed to provide the District's customers, investors and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's Auditor-Controller at P.O. Box 29000, Presidio Station, San Francisco, CA 94129-9000 or visit www.goldengate.org.

The following Management's Discussion and Analysis (MD&A) of the Golden Gate Bridge, Highway and Transportation District's (District) activities and financial performance provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2026 and 2025.

Following this MD&A are the basic financial statements of the District, together with the notes, are essential to a full understanding of the data contained in the financial statements.

This section should be read in conjunction with the transmittal letter located in the front of this report and the basic financial statements following this section.

DISTRICT ORGANIZATION AND BUSINESS

The District was formed under the authority of the Golden Gate Bridge and Highway Act of 1923, and incorporated on December 4, 1928, to include within its boundaries the City and County of San Francisco, the counties of Marin, Sonoma, Del Norte, most of Napa county, and part of Mendocino counties. The District is governed by a 19-member Board of Directors that is appointed by the elected representatives of their constituent counties. Today, the District, based in San Francisco, operates the Golden Gate Bridge (Bridge), the regional Golden Gate Transit (GGT) bus service connecting Sonoma, Marin, San Francisco, and Contra Costa counties, and the Golden Gate Ferry (GGF) system, which links Marin and San Francisco counties. An administrative division supports these operating divisions. To fund its public transportation services, the District relies primarily on tolls and transit fares. The disbursement of funds received by the District is controlled by statute and by provisions of various grant contracts entered into with the federal government, the State of California, and other local governments. The General Manager oversees the operations of all divisions according to the policy and direction of the Board of Directors (Board).

A summary of District indicators (in thousands) is shown below:

	2026	2025	2024
Total southbound vehicle crossings	17,147	16,903	16,735
% increase/(decrease)	1.4%	1.0%	2.4%
Bus patronage - regional service	1,816	1,502	1,432
% increase/(decrease)	20.9%	4.9%	9.5%
Ferry patronage	1,745	1,583	1,421
% increase/(decrease)	10.2%	11.4%	23.0%

The District is unique among Bay Area transit operations because it provides transit services without support from direct sales tax measures or dedicated general funds. As the District does not have the authority to levy taxes, the use of surplus Bridge toll revenue is the only available local means the District has available to support the District's regional bus and ferry transit services. Presently, GGT and GGF operations are funded approximately by 25% bridge tolls, 17% patron fares and 47% by grants. See the table "How the District was Funded in Fiscal Year 2026" shown on page 29, for further funding details.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District operates the Golden Gate Bridge, Golden Gate Transit regional bus service, and Golden Gate Ferry. These services and the administrative functions that support them are reported in a single enterprise fund using the economic resources measurement focus and accrual accounting. Bridge, Bus, and Ferry are operating divisions, not separate major funds. The District cannot levy taxes and relies principally on tolls, fares, service contracts, investment income, and governmental assistance.

The statement of net position reports assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position at year-end. The statement of revenues, expenses, and changes in net position reports operating results, noncapital subsidies, the subtotal of operating income or loss and noncapital subsidies, and other nonoperating revenues and expenses. Capital grants are included in other nonoperating revenues. The statement of cash flows explains cash receipts and payments from operating, financing, and investing activities. The notes provide the related accounting policies and detailed disclosures.

The financial statements also report the District's other postemployment benefit (OPEB) trust as a fiduciary fund. Its resources are held for employee benefits and are not included in the enterprise fund's net position or available to finance Bridge, Bus, or Ferry operations. Required supplementary information provides additional pension and OPEB information.

FINANCIAL POSITION SUMMARY

Total net position serves as a useful indicator of the District's financial position. The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by $1.1 billion at June 30, 2026, a $136 million increase from June 30, 2025. The primary source of the increase is the completion of capital projects in Fiscal Year 2026.

A condensed summary of the District's net position (in thousands) at June 30 is shown below:

	2026	2025	2024
Assets:			
Current assets	$ 475,669	$ 470,879	$ 511,913
Other noncurrent assets	40,467	39,417	31,175
Capital assets	1,014,306	902,009	806,803
Total assets	1,530,442	1,412,305	1,349,891
Deferred Outflows of Resources	58,899	61,805	92,290
Liabilities:			
Current liabilities	50,186	55,769	49,231
Debt outstanding	61,000	61,000	61,000
Other noncurrent liabilities	362,251	393,053	405,474
Total liabilities	473,437	509,822	515,705
Deferred Inflows of Resources	37,747	21,887	12,801
Net Position:			
Net investment in capital assets	934,181	816,029	720,963
Restricted			
Debt service requirements	12,791	12,791	12,791
Unrestricted (deficit)	131,185	113,581	179,921
Total Net Position	**$ 1,078,157**	**$ 942,401**	**$ 913,675**

The District has been focusing on balancing the operating expenses to revenues, including right sizing transit service to meet customer demand and looking to operate our services more efficiently than before the pandemic. These initiatives have increased current assets year over year. The District continues to take steps to reduce fixed costs too. For example, the District has reduced staffing through attrition. Its investment earnings also increased the overall fair value of the District's investment portfolio due to continued positive macro-economic market conditions. Ridership and toll crossings continue to increase year over year, though both are well below pre-pandemic levels. Deferred outflows of resources related to the District's and Amalgamated Transit Union's (ATU) decreased as a result of the actuarial results, while deferred inflows increased. Details regarding the specific increases and decreases are found in footnotes 12 & 13 respectively. Deferred outflows related to other post-employment benefits (OPEB) activities increased primarily as a result of the change in differences between actual and expected experience.

The majority of the decrease in other noncurrent liabilities is derived from the net pension liability for the CalPERS and Amalgamated Transit Union retirement plans. GASB 68 requires the District to include the unfunded liabilities of the CalPERS and Golden Gate Transit Amalgamated Retirement Plan (GGTAR) pensions on its financial statement. The District is legally responsible for the ultimate actuarial funding for the benefits provided under CalPERS. By contract with CalPERS, the District is required to contribute the Actuarially Determined Contribution (ADC) to CalPERS. This will eliminate the unfunded liability in the coming years with operating earnings and thus will not require funding from reserves. The District is not legally responsible for the unfunded liabilities of the GGTAR. It is only legally responsible for the contributions agreed to under collective bargaining under the terms of the GGTAR.

Of note is the increase in the District's Net OPEB liability of $1.9 million in 2026 is due to differences between actual and expected experience. Year over year, this increased the net OPEB liability by $18 million. District Board Policy dictates the contribution of the ADC to the OPEB trust fund, eliminating the unfunded liability in the coming years. The District will continue funding the ADC as prescribed by the Policy; in fiscal year 2026, the ADC was $12.3 million. Thus, the District's financial plans allocate the existing available resources GASB 68 and 75 denote to future capital projects (see table below).

The largest portion of the District's net position (86.6% at June 30, 2026) represents its investment in capital assets (i.e., Bridge, buses, ferries, buildings, improvements, and equipment), less the related debt outstanding used to acquire those capital assets. The District uses these capital assets to provide services to its customers. Although the District's investment in capital assets is reported net of related debt, it should be noted the resources required to repay this debt must be provided annually from operations, because the capital assets themselves are unlikely to be liquidated to pay for future liabilities.

An additional portion of the District's net position (1.2% at June 30, 2026) represents resources that are subject to external restrictions imposed by creditors (debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by laws through constitutional provisions or enabling legislation, that restrict the use of net position. Lastly, the unrestricted net position has increased by $17.6 million over the prior year due to primarily an increase in capital assets and positive change in net position for the year.

Counting the reserves set aside by the implementation of GASB Statement No. 75 (OPEB) in fiscal year 2018 and GASB Statement No. 68 (Pension) in fiscal year 2015, the District has the following net position available for future capital and operating needs (in thousands):

	2026	2025
Unrestricted Net Position	**$ 131,185**	**$ 113,581**
GASB 68 Effect:		
CalPERS:		
Deferred Outflows	(34,004)	(41,108)
Net Pension Liability	113,701	129,819
Deferred Inflows	10,917	553
Subtotal CalPERS	90,614	89,264
GGTAR:		
Deferred Outflows	(2,915)	(7,157)
Net Pension Liability	139,871	150,957
Deferred Inflows	6,392	9,726
Subtotal GGTAR	143,348	153,526
Total Net GASB 68 Effect	**233,962**	**242,790**
GASB 75 Effect:		
Deferred Outflows	(21,980)	(13,540)
Net OPEB Liability	53,956	52,093
Deferred Inflows	17,116	7,496
Total Net GASB 75 Effect	49,092	46,049
Net Position Available for Future Capital and Operating Needs	$ 414,239	$ 402,420

FISCAL YEAR 2026 FINANCIAL OPERATIONS HIGHLIGHTS

- Operating revenues, when compared to the prior fiscal year, increased from $198.8 million to $211.1 million, a change of $12.3 million. This was primarily due to bridge crossings and bus and ferry ridership trending upwards, though they are still below pre-pandemic levels. The increase was also due to a toll rate increase, in which FasTrak® rates increased from $9.25 to $9.75, Pay-By-Plate rates increased from $9.50 to $10.00 and invoice rates increased from $10.25 to $10.75. By year-end, the average toll rate had climbed from $9.54 to $9.94.

- Operating expenses before depreciation decreased from $233.3 million in 2025 to $216.6 million in 2026, a change of $16.7 million. The decrease is primarily driven by implementing service efficiencies in transit service operations and the strategic recruitment of vacant positions to match operational needs to reduced operating costs.

- The combination of ridership and the total number of toll crossings increasing, coupled with reduced operating costs, resulted in operating losses before depreciation and other non-operating revenues and expenses reflecting a loss of $5.6 million, a decrease of $29.0 million over last year's loss of $34.5 million. Depreciation decreased $10.3 million ($44.4 million in 2026 compared to $54.7 million in 2025) due to the District launching a few new projects such as the Golden Gate Bridge Seismic Retrofit construction project which are ongoing, and other projects, such as the Seismic Deterrent System being ongoing with final construction milestones remaining outstanding. This reduced depreciation year over year. As a result, operating income/loss before non-operating revenues and expenses and noncapital subsidies showed a loss of $50 million in 2026 compared to a loss of $89.2 million in 2025.

- Noncapital subsidies increased from $30.1 million to $66.9 million mainly due to the passage of Senate Bill 125 which awarded the District $35.2 million in the current fiscal year.

- Non-operating net revenues/expenses amounted to $118.8 million in 2026 in net revenues compared to net revenue of $87.8 million in 2025. The increase of $31 million was primarily the result of the District receiving capital grant funding due to the Golden Gate Bridge Seismic Retrofit construction project and Golden Gate Ferry constructing a new vessel.

FISCAL YEAR 2025 FINANCIAL OPERATIONS HIGHLIGHTS

- Operating revenues, when compared to the prior fiscal year, increased from $190.3 million to $198.8 million, a change of $8.5 million. This was primarily due to bridge crossings and bus and ferry ridership trending upwards, though they are still below pre-pandemic levels. The increase was also due to a toll rate increase, in which FasTrak® rates increased from $8.75 to $9.25, Pay-By-Plate rates increased from $9.00 to $9.50 and invoice rates increased from $9.75 to $10.25. By year-end, the average toll rate had climbed from $9.22 to $9.54.

- Operating expenses before depreciation increased from $221.2 million in 2024 to $233.3 million in 2025, a change of $12.1 million. The increase was related to continued incremental service restoration for both ferry & bus services due to slightly increasing demand for public transportation. Expenses were also recorded for the changes in net pension liabilities, deferred outflows and inflows from $41.3 million in 2024 to $44.6 million in 2025.

FISCAL YEAR 2025 FINANCIAL OPERATIONS HIGHLIGHTS (Continued)

- Operating losses before depreciation and other non-operating revenues and expenses reflected a loss of $34.5 million, an increase of $3.6 million over last year's loss of $30.9 million. Depreciation increased $2.4 million ($54.7 million in 2025 compared to $52.3 million in 2024) due to the District finishing a few major capital projects – i.e. capital equipment, Novato Pavement and Restoration, CAD/AVL Clipper Integration, et al. – and the depreciation expense related to the projects being incorporated with operating expenses. As a result, operating income/loss before non-operating revenues showed a loss of $89.2 million in 2025 compared to a loss of $83.2 million in 2024.

- Noncapital subsidies decreased from $84.5 million to $30.1 million because the District exhausted all federal COVID relief funds at the end of the 2024 fiscal year.

- Non-operating net revenues/expenses amounted to $87.8 million in 2025 in net revenues compared to net revenue of $41.8 million in 2024. The increase of $46.0 million was because capital grants from Federal, State and Local governments increased from $24.9 million in 2024 to $66.8 million in 2025. The increase was related to the suicide deterrent system being completed in FY2025 and grants being used for its completion. Federal funding for operations was $75 thousand in 2025 and $51 million in 2024, again due to federal COVID relief funding expiring.

SUMMARY OF CHANGES IN NET POSITION
(In thousands)

	2026	2025	2024
Operating revenues	$ 211,080	$ 198,797	$ 190,279
Operating expenses	(261,030)	(287,977)	(273,528)
Operating loss	(49,950)	(89,180)	(83,249)
Noncapital subsidies	66,881	30,082	84,486
Operating loss and noncapital subsidies	16,931	(59,098)	1,237
Other non-operating revenues (expenses)	118,825	87,824	41,824
Change in Net Position	135,756	28,726	43,061
Net Position, beginning	942,401	913,675	870,614
Net Position, ending	**$ 1,078,157**	**$ 942,401**	**$ 913,675**

DISTRICT TOLLS AND FARES

Golden Gate Bridge toll rates are set by Board Policy and change when determined necessary by the Board. The historical changes to the toll rates are listed as follows: in July of 2008, the District Board approved a 20% increase in the auto cash Bridge toll to $6.00 and a 25% increase in the FasTrak® toll to $5.00, effective September 2, 2008. In July 2012, the District eliminated its free carpool program and implemented a carpool toll rate at 50% of the cash toll for 2-axle vehicles. In addition, tolls for multi-axle vehicles increased as part of a two-stage program; the second increase occurred in July of 2012. At its meeting in February 2014, the Board approved an increase in the FasTrak® toll to $6.00, effective April 7, 2014, along with a $1.00 increase for Pay-By-Plate ($7.00). The Board also approved a five-year toll increase program in which a twenty-five-cent increase occurred during each of the four subsequent years. In 2019, the Board approved a five-year fare increase resulting in FasTrak® tolls being $8.75; Pay-By-Plate is $9.05 and invoiced tolls being $9.75 as of July 1, 2023. In March 2024, the Board approved a new five-year toll program which went into effect July 1, 2024, and increased tolls for most customers by $0.50 over the next five years. Offsetting these increases is higher projected cost-of-living (salary), pension, medical insurance and other fringe benefit costs.

DISTRICT TOLLS AND FARES (Continued)

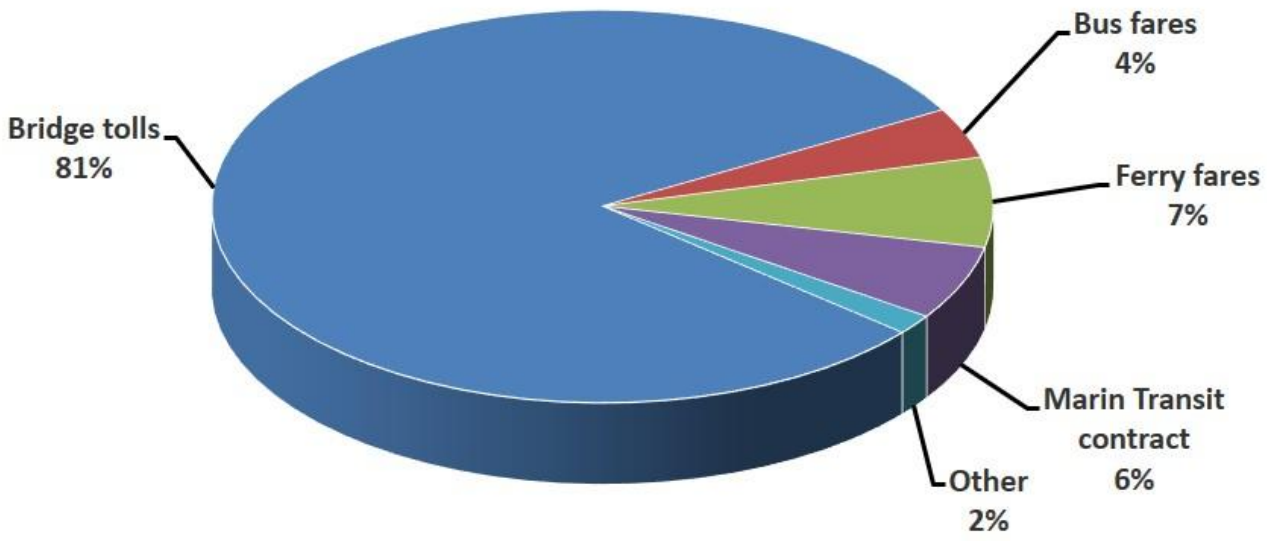

Board Policy sets Golden Gate regional transit fares. Changes to the fare structure are typically established through five-year fare programs which historically approximate a 4% increase each year. In March 2023, a new five-year fare program was approved, and fares increased an average of 2% as of July 1, 2023. Fares were not increased for fiscal year 2023 by Board action. In fiscal year 2024, fares increased by $0.25. Fares increased by $0.25 in fiscal year 2025 and $0.25 in fiscal year 2026 as well.

The following is a summary of tolls and fares:

	2026	2025	2024
Average Bridge toll	$9.94	$9.54	$9.22
Average bus fare-regional service	$4.97	$5.28	$5.42
Average ferry fare	$8.89	$9.08	$9.31

REVENUES

The following chart shows the major sources and the percentage of operating revenues for the year ended June 30, 2026 (tolls, transit fares and other):

REVENUES (Continued)

A summary of revenues for the years ended June 30, 2026 and 2025, and the amount and percentage of change in relation to prior year amounts (in thousands), is as follows:

	2026 Amount	Percent of Total	Increase/ (Decrease) From 2025	Percent Increase/ (Decrease)
Operating Revenues:				
Bridge tolls	$ 170,375	42.7%	$ 9,351	5.8%
Bus fares	8,798	2.2%	814	10.2%
Ferry fares	15,585	3.9%	1,065	7.3%
Marin Transit contract	12,860	3.2%	(113)	(0.9%)
Other	3,462	0.9%	1,166	50.8%
Total operating revenues	211,080	52.9%	12,283	6.2%
Noncapital subsidies:				
Operating assistance	66,881	16.8%	36,799	122.3%
Total noncapital subsidies	66,881	16.8%	36,799	122.3%
Non-operating Revenues:				
Investment income (expense)	16,336	4.1%	(9,073)	(35.7%)
Capital grants	104,819	26.3%	37,977	56.8%

Non-operating Revenues:				
Investment income (expense)	21,557	6.7%	16,217	303.7%
Capital grants	24,856	7.7%	(3,474)	(12.3%)
Total non-operating revenues	46,413	14.5%	12,743	37.8%
Total Revenues	**$ 321,178**	**100.0%**	**$ 20,611**	**6.9%**

REVENUES (Continued)

The increase in total revenues for 2026 was due to ridership on GGT and GGF continuing to improve year over year and total southbound crossing increasing from prior year. These factors, when paired with scheduled toll and transit fare increases, resulted in increased operating revenues. Demand for public transit services in fiscal year 2026 continues to trend upwards from 2025. Overall, the pandemic continues to significantly impact bridge crossings and transit ridership negatively and is projected to take many future years to reach pre-pandemic levels of ridership and crossings. Today, over 30 percent of all office space in downtown San Francisco remains unleased resulting in less commute traffic that corresponds to less toll revenue available for our transit services. Until there is a demand for workers to return to work in San Francisco, the District's finances will continue to be impacted.

Bus patronage is up 21% year over year, and ferry ridership is up 10% year over year. Again, while the usage is trending upwards, it is still well below pre-pandemic levels.

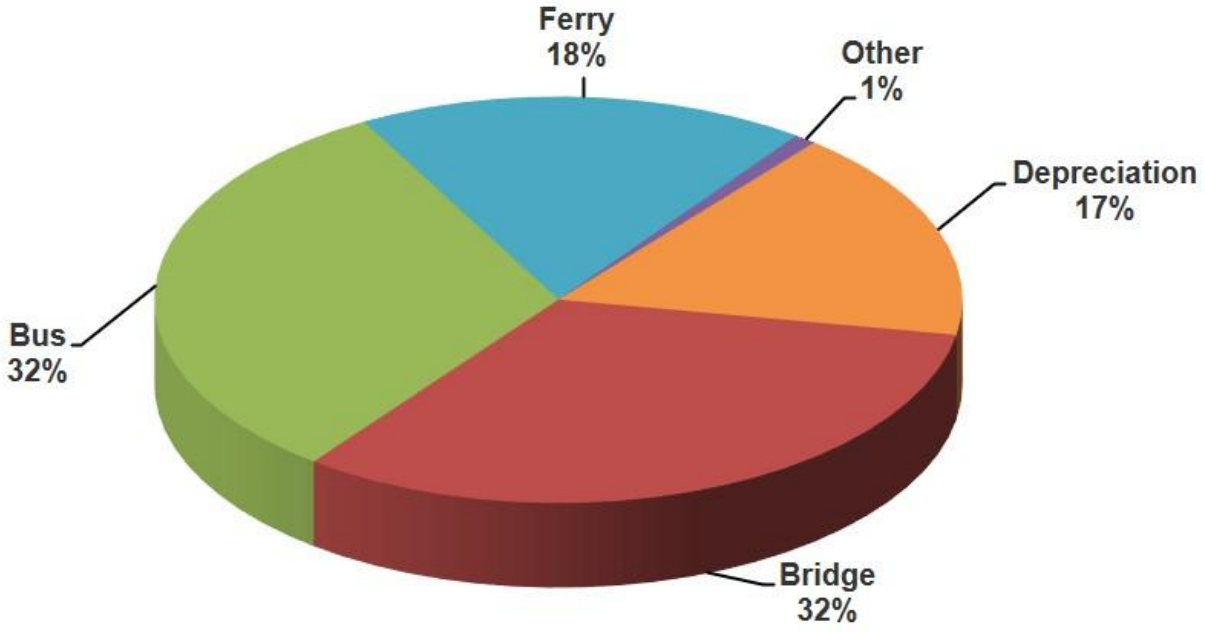

The District funds its operations with Bridge tolls, transit fares, government grants, and other revenues from operations or investments. The operations of the Bridge Division produce a surplus of Bridge toll revenues that are used to subsidize transit operations. Additionally, in years where there are not sufficient Bridge toll revenues to fully subsidize transit operations, the District uses reserve funds to cover the shortfall. The reserves were funded with Bridge toll revenues from past years. The following table, which is derived from the Supplemental Schedule of Revenues and Expenses by Division (Non-GAAP Basis), shows how the divisions were funded in fiscal year 2026. The table includes transfers to designated reserves in the amount of $22.3 million to be used to fund capital projects and Bridge self-insurance reserves.

HOW THE DISTRICT WAS FUNDED IN FISCAL YEAR 2026 (In thousands)

	Bridge Division		Bus Transit Division		Ferry Transit Division		Combined Transit Divisions Division		District Total	
Funding category	$	%	$	%	$	%	$	%	$	%
Operating revenues:										
Bridge tolls	$ 170,374	67%	$ -	0%	$ -	0%	$ -	0%	$ 170,374	45%

Total	**$ 254,860**	**100%**	**$ 68,618**	**100%**	**$ 59,302**	**100%**	**$ 127,920**	**100%**	**$ 382,780**	**100%**

EXPENSES

The following chart shows the major cost centers and the percentage of expenses (excluding disposal of capital assets) for the year ended June 30, 2026:

EXPENSES (Continued)

Interest expense is related to the commercial paper notes issued to support the Golden Gate Bridge (Bridge) seismic retrofit project. Depreciation expense is divided among the Bridge, Bus, and Ferry divisions based on projects assigned to each; expense allocation is 36%, 29%, and 35%, respectively.

A summary of expenses for the years ended June 30, 2026 and 2025, and the amount and percentage of change in relation to prior year amounts (in thousands), is as follows:

	2026 Amount	Percent of Total	Increase/ (Decrease) From 2025	Percent Increase/ (Decrease)
Operating Expenses:				
Bridge	$ 85,766	32.6%	$ 5,338	6.6%
Bus	83,330	31.6%	(24,903)	-23.0%
Ferry	47,537	18.1%	2,889	6.5%
Total operating expenses, excluding depreciation	216,633	82.3%	(16,676)	-7.1%
Other Expenses:

EXPENSES (Continued)

Total operating expenses encompass salaries, benefits, including pension and healthcare costs, and other business expenses. Total operating expenses decreased due to reductions in fixed costs due to positions not being filled through attrition. GGT route service continues to be right sized for demand and GGF continues to work on operational efficiencies thereby keeping expenses lower than pre-pandemic levels.

FINANCIAL STATEMENTS

The District's financial statements are prepared on an accrual basis in accordance with generally accepted accounting principles pronounced by the Governmental Accounting Standards Board. The District operations are reported in a single enterprise fund with revenues recognized when earned, not when received. Expenses are recognized when incurred, not when they are paid. Capital assets are capitalized and (except land and construction in progress) are depreciated over their useful lives. Amounts are restricted for debt service and, where applicable, for construction purposes. See Note 2 to the financial statements for a summary of the District's significant accounting policies.

SIGNIFICANT CAPITAL ASSET AND LONG-TERM FINANCING ACTIVITY

During 2026, the District expended $157.1 million, an increase of $8.2 million or 6.3% more than the amount expended in 2025, on capital activities. This included the following major construction and procurement projects:

- Suicide Deterrent project ($9.7 million).
- Seismic 3 Design ($6.5 million).
- Seismic Retrofit Construction Project ($106 million).
- Purchase New Vessel ($10 million).

During 2026, completed projects totaling $15.9 million, an increase of $3 million over the amount completed in 2025, were closed from construction in progress to their respective capital accounts. The major projects completed include:

- Spaulding Drydocking ($4.1 million).
- Capital Equipment (FY26) ($2.3 million).
- Berth Camels & Floats Restore ($2.8 million).

During 2025, the District expended $147.3 million, an increase of $104.8 million or 247% more than the amount expended in 2024, on capital activities. This included the following major construction and procurement projects:

- Suicide Deterrent project ($107.4 million).
- Seismic 3 Design ($10.5 million).
- D1 Employee Lot Resurfacing ($8.8 million).
- Ferry Vessel Rehab ($4.3 million).

During 2025, completed projects totaling $12.9 million, a decrease of $33.3 million over the amount completed in 2024, were closed from construction in progress to their respective capital accounts. The major completed projects included:

- D2 Pavement & Remediation ($6.7 million).
- FY25 Capital Equipment Purchases ($2 million).
- CAD/AVL Clipper Integration ($1 million).

CAPITAL ACQUISITIONS AND CONSTRUCTION ACTIVITIES (Continued)

Capital asset acquisitions are capitalized at cost. Acquisitions are funded using a variety of financing techniques, including federal grants with matching state grants and District reserve funds, debt issuance, and District revenues. Additional information on the District's capital assets and commitments can be found in Note 4 (Capital Assets) in the financial statements.

DEBT ADMINISTRATION

On July 12, 2000, the District issued commercial paper notes Series A and Series B in an amount of $30,500,000 for each series to provide funds for the Golden Gate Bridge (Bridge) seismic retrofit project and the renovation of main cables of the Bridge. The commercial paper notes are secured by a pledge of the District's revenues and two dedicated reserves, and also secured by a line of credit. Under this program, the District can issue commercial paper notes at prevailing interest rates for periods of maturity not to exceed 270 days. There has been no change in the debt balance since the inception of the program. At June 30, 2026, $61,000,000 in commercial paper notes was outstanding and maturing within 63 to 77 days, with interest ranging from 2.42% to 2.44% (2.80% to 2.92% in 2025).

CREDIT RATINGS AND BOND ISSUANCE

Standard and Poor's Corporation (S&P) and Fitch began rating the District in 2000 when the District issued commercial paper for the first time. The District has the second highest credit rating (AA- for S&P issue credit rating, and A-1+ for S&P short-term rating) in the nation for a single toll facility. These are implied credit ratings as the District has no outstanding long-term debt and has no current plans to issue any. Currently, the District has $61.0 million in outstanding commercial paper.

The Commercial Paper Notes are secured by a pledge of the District's revenues and a $76.2 million line of credit. As additional security, the District established both an Operating Reserve Fund and a Debt Service Reserve Fund. See additional information on the District's commercial paper notes payable in Note 5 (Commercial Paper Notes Payable) in the financial statements.

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

Recurring operating funding remains a challenge because tolls and fares depend on travel demand and one-time assistance is not a permanent revenue base. The fiscal year 2027 budget assumes operating expenses are to be paid for with $20.4 million of SB 125 carryover funds and the projected use of $26.7 million in District Reserves. Despite bridge traffic and bus and ferry ridership showing year-over-year growth, they remain significantly lower than pre-pandemic levels, making the use of District reserves necessary. The long-term use of District Reserves to pay operating expenses is not sustainable. Over time, the District must align recurring revenue sources with its core operating costs. One-time state or federal funding helps temporarily but does not address the underlying fiscal imbalance.

(1) ORGANIZATION

The Golden Gate Bridge, Highway and Transportation District (District) was originally formed under the authority of the Golden Gate Bridge and Highway Act of 1923, and incorporated on December 4, 1928, to include within its boundaries the City and County of San Francisco, the counties of Marin, Sonoma, Del Norte, most of Napa county, and part of Mendocino county. The District is governed by a 19-member Board of Directors who are appointed by the elected representatives of their constituent counties. The District, based in San Francisco, operates the Golden Gate Bridge (Bridge), the regional Golden Gate Transit (GGT) bus service connecting Sonoma, Marin, San Francisco, and Contra Costa counties, and the Golden Gate Ferry (GGF) system, which links Marin and San Francisco counties. To fund its public transportation services, the District relies primarily on toll and transit fares. The disbursement of funds received by the District is controlled by statute and by provisions of various grant contracts entered into with the federal government, the State of California and other local governments. The District consists of three operating divisions, Bridge, Bus and Ferry, and an administrative District Division. The District Division has no revenue and all District Division expenses are allocated to general and administrative expenses of the other divisions.

The accompanying basic financial statements also include the financial activities of the Golden Gate Bridge, Highway and Transportation District Other Post-Employment Benefits Trust (Trust) as a fiduciary fund. The Trust is a legally separate organization. The financial activities of the Trust are included in the basic financial statements because they serve the employees of the District exclusively and are governed by the District's Board, and management has operational responsibility with respect to investments and benefit administration.

(2) SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity – The District's reporting entity includes all activities of the District.

Basis of Accounting and Measurement Focus – The District accounts for its activities in enterprise and fiduciary funds. Those funds maintain their records using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the related liability is incurred, regardless of the timing of the related cash flows.

Cash Equivalents – The District considers all highly liquid investments with a maturity of three months or less to be cash equivalents (See Note 3).

Investments – Investments are stated at fair value (see Note 3). The California Government Code and the District's Investment Policy authorize the District to invest in obligations of the U.S. Treasury, its agencies and instrumentalities; negotiable certificates of deposit; commercial paper rated A-1 by Standard and Poor's Corporation or P-1 by Moody's Commercial Paper Record; bankers' acceptances; repurchase agreements; reverse repurchase agreements; and the State Treasurer's investment pool, having maturities of five years or less.

OPEB investment policy is established by the OPEB Trust Board and are stated at fair value. The policy allows domestic and international equities, fixed income securities and other investments, including nontraditional asset classes such as private equity, when deemed appropriate within the Trust's investment objectives and guidelines.

Restricted Assets – consist of monies and other resources that are restricted legally as described below:

Operating Reserve Fund – These assets are restricted for the Bridge Division principal and interest on the July 12, 2000, commercial paper notes which must be at least equal to the lesser of $12,000,000 or 12% of the principal amount of all notes then outstanding.

Debt Service Reserve Fund – These assets represent the July 12, 2000 commercial paper notes proceeds held in Debt Reserve Account, which must be at least equal to the lesser of 125% of average annual debt service on all notes then outstanding or 10% of the principal amount of all notes then outstanding.

Inventory – All inventories are valued at cost using the average cost method, which approximates the market.

Deferred Outflows and Inflows of Resources – In addition to assets, the Statement of Net Position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the Statement of Net Position will report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Capital Assets – The District defines capital assets as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of one year. Major additions and replacements are capitalized. Maintenance, repairs and additions of a minor nature are expensed as incurred. The costs of acquisition and construction of equipment and facilities are recorded as construction in progress until such assets are completed and placed in service, at which time the District commences recording depreciation expense.

Depreciation – The District calculates depreciation on the straight-line method over the estimated useful lives of the assets, as follows:

Bridge structural components	100 years
Bridge buildings, toll plaza structure, deck, roadways and sidewalks	20 - 50 years
Buses	5 - 16 years
Ferry vessels	25 - 30 years
Other transit properties	5 - 50 years

Leases and SBITA Amortization Useful Lives – Lease and SBITA amortization useful lives are as follows:

Intangible Right-to-Use Subscription-Based Information Technology Arrangements	1 - 3 years
Land and Facility Leases	1 - 30 years

Capital Grants – The District has grant contracts with the U.S. Department of Transportation through the Federal Transit Administration for certain capital improvements. Federal Transit Administration funds are used to replace and improve the District's buses, ferries, and transit facilities. Capital funding provided under government grants is considered earned as the related allowable expenses are incurred.

Grants for property & equipment acquisition and facility development & rehabilitation are reported as capital grants in the non-operating revenues and expenses section in the Statement of Revenues, Expenses, and Changes in Net Position.

The District's capital grants for the years ended June 30, 2026 and 2025 are as follows (in thousands):

	Bridge Division	Bus Division	Ferry Division	Total
Capital grants in fiscal year 2026:				
U.S. Department of Transportation	$ 82,920	$ 655	$ 11,012	$ 94,587
State Transportation Program	-	-	2,352	2,352
Low Carbon Transit Program	-	-	7,572	7,572
Local assistance	49	259	-	308
Total capital grants	**$ 82,969**	**$ 914**	**$ 20,936**	**$ 104,819**
Capital grants in fiscal year 2025:				
U.S. Department of Transportation	$ 49,697	$ 7,927	$ 6,060	$ 63,684
State Transportation Program	-	-	1,907	1,907
Low Carbon Transit Program	-	-	105	105
U.S. Department of Homeland Security	-	-	965	965
Local assistance	49	-	132	181
Total capital grants	**$ 49,746**	**$ 7,927**	**$ 9,169**	**$ 66,842**

Compensated Absences – Accumulated vacation and sick leave is recorded as an expense and liability as the benefits accrue to employees. The District's compensated absences for the years ended June 30, 2026 and 2025 are as follows (in thousands):

	2026	2025
Beginning Balance	$ 13,821	$ 11,096
Payments	(9,026)	(11,009)
Additions	8,357	13,734
Ending Balance	13,152	13,821
Current Portion	770	671
Non-current Portion	**$ 12,382**	**$ 13,150**

The current portion of the compensated absences liability is reflected as a current liability in the Statement of Net Position and is expected to be used within one year. Unused accumulated vacation leave is paid at the time of employment termination up to the maximum of 320 hours for 40-hour employees. Unused accumulated sick leave is paid at the time of employee's death or retirement at 50 percent.

Operating Revenues and Expenses – Operating revenues and expenses consist of revenues and expenses other than those reported in noncapital subsidies and nonoperating revenues and expenses sections in the Statement of Revenues, Expenses and Changes in Net Position. Continuing with the contract entered into May 2015 with the Marin County Transit District, the fare revenues for the Marin local bus service lines and the related revenues from Marin County's state and local funding sources are classified as operating revenues.

Noncapital Subsidies – Noncapital subsidies represent resources received from another party or fund for which the District does not provide goods or services and that directly or indirectly keep current or future fares, fees, or charges lower than they otherwise would be. Examples may include state transit assistance, local transportation funds received, intergovernmental grants, and other operating support received to fund ongoing operations. The District's noncapital subsidy grants are recorded as revenue when all eligibility requirements have been satisfied.

Nonoperating Revenues and Expenses The District's nonoperating revenues and expenses include: (1) capital subsidies received and provided, (2) expenses related to financing, (3) resources from the disposal of capital assets, (4) investment income and expenses, and (5) transit subsidies provided.

Leases – The District entered lease contracts in which the District is a lessor and lessee as described below:

Lessee – The District is a lessee for a noncancellable lease of buildings and equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the financial statements. At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The District uses the interest rate charged by the lessor as the discount rate if available. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported as current and non-current lease liability on the statement of net position.

Lessor – The District is a lessor for a non-cancellable lease of buildings and equipment. The District recognizes a lease receivable and a deferred inflow of resources in the financial statements. At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term. Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee. The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription Based Information Technology –The District has non-cancellable subscription-based IT arrangements for the right-to-use information technology software. For subscription-based IT arrangements with a maximum possible term of twelve months or less at commencement, the District recognizes an expense based on the provisions of the subscription-based IT arrangements. For all other subscription-based IT arrangements, the District recognizes a subscription-based IT liability and an intangible right-to-use subscription-based IT asset.

Net Position – Net position comprises the various net earnings from operating income, non-operating revenues, expenses and capital grants. Net position is classified into the following three components:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are outstanding capital-related borrowings restricted for debt payment at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt proceeds is included in the net position component restricted for debt service.

Restricted – This component of net position consists of external constraints imposed by creditors (through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation, that restrict the use of net position.

Unrestricted – This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

Reserves and Balances – The Board policy funds the operating reserve at 7.5% of the operating budget or to cover the expected operating deficit, whichever is larger. The Board policy funds the emergency reserve at 3.5% of the operating budget to enable the amount kept in reserve for emergencies to remain relative to the size of the District’s operations. The balances of these reserves at June 30, 2026, are $22.1 million and $36.2 million, respectively.

Spending Policy – The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Pension Plans – The District participates in several pension plans covering all employees. Certain members are covered under a plan that currently has members from only one employer, the Golden Gate Transit Amalgamated Retirement Plan (GGTAR), or other multi-employer plans, while other union and non-union employees participate in the CalPERS plan. Pension contributions are based on rates established by negotiated labor contracts or by the actual plans.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of CalPERS plan and GGTAR plan and additions to/deductions from the Plans’ fiduciary net position have been determined on the same basis as they are reported by CalPERS and GGTAR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Note that it has been determined GASB 68 requires an agency to report net pension obligations as a liability on its financial statement even if the agency is not legally responsible for the net pension obligation. Thus, the net pension liability of the GGTAR is recorded along with the District’s portion of the net pension liability of CalPERS, even though under the terms of the GGTAR plan the District is only responsible for contributions agreed-upon in the collective bargaining process.

Other Post-employment Benefits (OPEB) – For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates – The preparation of basic financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

New Accounting Pronouncements – Effective This Fiscal Year

GASB Statement No. 103 – In April 2024, GASB Issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision-making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. The District implemented the requirements of this Statement.

GASB Statement No. 104 – In September 2024, GASB Issued Statement No. 104, *Disclosure of Certain Capital Assets*. The Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures and also requires additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. The District implemented the requirements of this Statement.

New Accounting Pronouncements – Effective in Future Fiscal Years

GASB Statement No. 105 – In December 2025, GASB issued Statement No. 105, *Subsequent Events*. The Statement clarifies the accounting and disclosure requirements for subsequent events and requires disclosure of the date through which subsequent events have been evaluated. The requirements of this Statement are effective for fiscal years beginning after June 15, 2026. The District is evaluating the impact of this Statement on the financial statements.

(3) CASH AND INVESTMENTS

The District maintains cash and investments that are available for general use subject to prior Board designations and debt covenant or grant restrictions. At June 30, cash and investments are comprised of the following (in thousands):

	2026	2025
Reported in the enterprise fund as:		
Unrestricted:		
Cash and cash equivalents	$ 2,278	$ 1,334
Investments	417,368	423,393
Total unrestricted cash and investments	419,646	424,727
Restricted:		
Cash and cash equivalents	38,228	36,538
Total cash and investments in the enterprise fund	**$ 457,874**	**$ 461,265**
Reported in the fiduciary fund as:		
Restricted:		
Cash and cash equivalents	$ 1,545	$ 2,221
Investments	161,520	140,443
Total cash and investments in the fiduciary fund	**$ 163,065**	**$ 142,664**

Deposits – Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. California Government Code Section 53600 requires California banks and savings and loan associations to secure governmental deposits by pledging government securities as collateral. The fair value of pledged securities must equal at least 110% of the public agency deposits. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the public agency total deposits. As of June 30, 2026 (and 2025), of the District's bank balance of $26,299,000 (2025, $23,741,000) approximately $25,799,000 (2025, $23,241,000) is uninsured but is collateralized in conformance with the California Government Code.

Investments

At June 30, 2026 and 2025, cash and investments excluding the OPEB Trust Fund investments, were comprised of the following (in thousands):

	June 30, 2026			June 30, 2025		
Investments	**Fair Value**	**Less than 1 Year**	**1-5 Years**	**Fair Value**	**Less than 1 Year**	**1-5 Years**

Demand deposits	26,142			23,356		
Cash on hand	3			5		
Total cash and investments - District	**$ 457,874**			**$ 461,265**		

At June 30, 2026 and 2025 the OPEB Trust Fund cash and investments were comprised of the following (in thousands):

	June 30, 2026			June 30, 2025		
Investments	**Fair Value**	**Less than 1 Year**	**1-5 Years**	**Fair Value**	**Less than 1 Year**	**1-5 Years**
Mutual Funds - Equity	$ 92,467	$ 92,467	$ -	$ 75,720	$ 75,720	$ -
Mutual Funds - Fixed Income	43,890	43,890	-	44,798	44,798	-
Private Capital Investments	25,163	-	25,163	19,925	-	19,925
Total investments	161,520	$ 136,357	$ 25,163	140,443	$ 120,518	$ 19,925
Cash and deposits						
Demand deposits	1,545			2,221		
Total OPEB Trust Cash & Investments	**$ 163,065**			**$ 142,664**		

Interest Rate Risk – Interest rate risk is the risk that changes in market rates will adversely affect the fair value of an investment. State law limits investment maturities to five years as a means of managing entities' exposure to fair value losses arising from increasing interest rates. In addition, eligible commercial paper issues have a maximum maturity of 397 days or less. The District also invests in callable Federal Agency notes as noted above. These issues are sensitive to interest rate changes and are callable at par prior to maturity based on these rate changes.

Credit Risk – The District's Investment Policy mirrors the California Government Code (the "Code") that regulates the investment of public funds for local agencies. No additional restrictions are provided by the District's Investment Policy to increase the flexibility of permitted investments while still adhering to the tenets of safety, liquidity and yield.

As of June 30, 2026 and 2025, the District held investments with the following national ratings and amounts (in thousands):

Investment	Rating	2026	2025
Federal agency bond/note	AAA	$ 70,756	$ 62,667
Asset backed securities	AAA	41,207	53,268
California Asset Management Program	AAA	24,478	74,292
Supra national agency bonds/notes	AAA	2,392	2,407
Treasury notes	AA	111,128	135,789
Certificate of deposits	AA	5,560	5,601
Medium-term corporate notes	AA	35,058	31,148
Municipal bonds	AA	976	4,752
Commercial paper	AA	3,394	1,447
Certificate of deposits	A	2,007	6,447
Medium-term corporate notes	A	61,772	59,230
Local Agency Investment Fund	Unrated	73,001	856
Total		**$ 431,729**	**$ 437,904**

As of June 30, 2026 and 2025, the District's investment in the State Treasurer's investment pool (LAIF) was $73,001,000 and $856,000 respectively. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. The value of the District's pro rata shares in LAIF, which may be withdrawn, is determined on an amortized cost basis, which is different than the fair value of the District's position in the pool. The District's investment in LAIF is unrated. LAIF is not registered with the SEC. Investments reported in the OPEB fiduciary fund were invested in mutual funds or private capital investment funds. These investments were unrated as of June 30, 2026.

Concentration of Credit Risk – The District limits the purchase of investments to no more than five percent (5%) of the District's surplus funds in any one institution, inclusive of all sectors, except for United States Treasury, federal agency, United States government-sponsored enterprise obligations, supranational obligations and money market funds and local government investment pools. At June 30, 2026 and 2025, the District held more than 5% of the District's investment portfolio in the following issuers:

Investment	2026	2025
Federal Home Loan Mortgage	12.62%	10.55%

Fair Value Hierarchy - The District categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability or inputs that are derived principally from observable market data by correlation or other means; and Level 3 inputs are significant unobservable inputs. Investments in LAIF and CAMP are uncategorized because deposits to and from the pool are made on the basis of $1.00 and not at fair value. For Level 2 investments, the District uses matrix pricing to value its investments. The following is a summary of the fair value hierarchy of the fair value of investments of the District, including investments reported in the OPEB fiduciary fund, as of June 30, 2026 and June 30, 2025 (in thousands):

		Fair Value Measurements Using

Total investments	**$ 578,347**		

As of June 30, 2026, “Private Capital Investments” consists of four private real estate funds, four private debt funds, two private infrastructure funds, and three private equity funds. The fair value of the investments has been determined based on net asset value provided by the investment managers of the funds. All but two of the funds are closed-end vehicles and are not redeemable in the open markets. One of the private real estate funds and one of the private infrastructure funds are open-ended, perpetual life vehicles for which quarterly redemption of units may be permitted. For the open-ended private infrastructure vehicle, redemptions are only permitted following the expiration of the lockup period. However, both open-ended vehicles are still considered illiquid investments that are not expected to have developed public markets. The closed-end vehicles have finite lifespans ranging from seven to twelve years, subject to multiple “one-year” extensions. It is expected that the closed-end investments will be held for the duration of their respective fund lives. The open-ended investments may be held in perpetuity or redeemed at the discretion of the investor. Distributions are made from the free cash flow of the funds. Distributions typically occur quarterly but may occur more or less frequently. Private real estate funds distribute rental income and proceeds from the sale of properties to investors. Private debt funds distribute interest and principal received from underlying debt instruments to investors. Private infrastructure funds distribute income and proceeds generated from the operations and sale of underlying infrastructure assets to investors. Private equity funds distribute earnings and proceeds from the sale of underlying portfolio companies to investors. Due to the inherent uncertainty in the valuation of these types of investments, the fair value reported on the financial statements may differ from the values that would have been used if a ready market for such securities existed.

(4) CAPITAL ASSETS

Capital asset activity for the years ended June 30, 2026 and 2025 was as follows (in thousands):

	Balance July 1, 2025	Additions	Retirements/ Adjustments	Transfers	Balance June 30, 2026

At June 30, 2026 and 2025, the District had construction in progress of approximately $564,067,000 and $423,407,000 respectively; Bridge-related projects are approximately $470,286,000 and $380,191,000 respectively. This includes the Golden Gate Bridge Seismic Retrofit construction project.

(5) COMMERCIAL PAPER NOTES PAYABLE

On July 12, 2000, the District issued commercial paper notes Series A and Series B in an amount of $30,500,000 for each series to provide funds for the Golden Gate Bridge (Bridge) seismic retrofit project and the renovation of main cables of the Bridge. The Commercial Paper (Notes) are secured by a pledge of certain District revenues and a $76.2 million line of credit. In addition, the notes are also secured by a $7.3 million operating reserve fund and a $5.6 million debt service fund. As stipulated in the indenture, the District's required debt coverage ratio is two times each year's annual debt service. In the event that the debt coverage ratio is less than two times the annual debt service, the District is required to take measures to revise its operations to comply with the debt coverage ratio requirement. The debt coverage ratio for years ended June 30, 2026, and June 30, 2025, were 54.2 and 14.8 respectively (see Table 8 on page 100).

The District is not required by the Indenture to repay the principal of the Notes in any particular amount or at any particular time except in the full amount of principal on each maturity date of the Notes. This may be paid from the proceeds of the resale of the Notes or loans from the $76.2 million line of credit in the event the Dealer is unable to resell the Notes. No portion of the line of credit was drawn upon during the year. The unused amount of the line of credit at June 30, 2026 was $76.2 million.

Under this program, the District can issue commercial paper notes at prevailing interest rates for periods of maturity not to exceed 270 days. There has been no change in the debt balance since the inception of the program. On June 30, 2026, $61,000,000 in commercial paper notes was outstanding and maturing within 63 to 77 days, with interest ranging from 2.42% to 2.44%.

(6) LEASES

Leases receivable – The District entered into lease contracts for property and equipment. The leases have scheduled rent payments of $36 thousand monthly and expire between fiscal years 2027 through 2031. In fiscal year 2026, the District recognized $800,000 in lease revenue and $105,000 in interest revenue and in fiscal year 2025, the District recognized $748,000 in lease revenue and $12,000 in interest revenue. As of June 30, 2026 and June 30, 2025, the District's receivable for lease payments was $3,523,000 and $4,219,000, respectively. Also, the District has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of June 30, 2026, and June 30, 2025 the balances of the deferred inflow of resources were $3,322,000 and $4,112,000, respectively.

Leases payable – The District entered into lease contracts for property and equipment. As of June 30, 2026 and June 30, 2025, the value of the lease liability was $7,925,000 and $8,433,000, respectively. The District is required to make monthly principal and interest payments as shown below. The leases have an interest rate of approximately 2.94%. The equipment and buildings' estimated useful life are depreciated in accordance with the District's policy similar to purchased or acquired capital assets. The carrying amount of the right-to-use lease assets was $11,872,000 and $11,872,000 at June 30, 2026 and June 30, 2025, respectively. The related accumulated amortization was $4,034,000 and $3,539,000, at June 30, 2026 and June 30, 2025, respectively. The net right-to-use leased assets as of June 30, 2026 and June 30, 2025 are $7,838,000 and $8,333,000, respectively. The changes in leases payable over the last two fiscal years are as follows (in thousands):

	Balance July 1, 2025	Additions	Retirements/ Adjustments	Balance June 30, 2026	Due in One Year
Leases payable	$ 8,433	$ -	$ (508)	$ 7,925	$ 366

	Balance July 1, 2024	Additions	Retirements/ Adjustments	Balance June 30, 2025	Due in One Year
Leases payable	$ 9,133	$ -	$ (700)	$ 8,433	$ 508

The scheduled principal and interest payments are as follows (in thousands):

Fiscal Year Ending June 30,	Principal	Interest	Total
2027	$ 366	$ 113	$ 479
2028	314	122	436
2029	318	121	439
2030	322	120	442
2031	326	119	445
2032-36	1,510	574	2,084
2037-41	1,656	522	2,178
2042-46	892	422	1,314
2047-51	942	292	1,234
2052-56	1,279	113	1,392
	$ 7,925	$ 2,518	$ 10,443

(7) Subscription-Based Information Technology Arrangements

A subscription-based IT arrangement (SBITA) is defined as a contractual agreement that conveys control of the right to use another entity's IT asset, alone, or in conjunction with a tangible capital asset, for a minimum contractual period of greater than one year, in an exchange or exchange-like transaction. The District enters into SBITAs such as software licenses downloaded or available remotely, data storage, and hardware necessary to use the IT asset. The related obligations are presented in the amounts equal to the present value of SBITA payments, payable during the remaining SBITA term. As the licensee, the District recognizes a SBITA liability and an associated intangible-SBITA asset on the Statement of Net Position.

The District has several leasing arrangements accounted for under GASB No. 96, *Subscriptions Based Information Technology Arrangements*. These arrangements are summarized below.

Licensee Activities

The District has accrued liabilities for eight subscription based information technology (IT) arrangements as of June 30, 2026. Software subscriptions accrued provide the District with ride scheduling and dispatching, tolling system and enterprise application functionality. The remaining liability for these subscriptions is $3,937,000 and $6,126,000 as of June 30, 2026 and 2025, respectively. Right to use assets, net of amortization, for these subscriptions is $3,661,000 as of June 30, 2026 and $5,794,000 as of June 30, 2025. Interest expense recognized on these subscriptions was $154,000 and $159,000 for the fiscal years ended June 30, 2026 and 2025, respectively. Principal payments of $2,405,000 and $2,150,000 were recognized in the years ended June 30, 2026 and June 30, 2025, respectively. Final payment on these subscription arrangements is expected in fiscal year 2028.

	Balance July 1, 2025	Additions	Retirements/ Adjustments	Balance June 30, 2026	Due in One Year
Subscription payable (in thousands)	$ 6,126	$ 216	$ (2,405)	$ 3,937	$ 2,507

	Balance July 1, 2024	Additions	Retirements/ Adjustments	Balance June 30, 2025	Due in One Year
Subscription payable (in thousands)	$ 5,267	$ 3,009	$ (2,150)	$ 6,126	$ 2,405

The District's schedule of future payments included in the measurement of subscriptions payable is as follows (in thousands):

Fiscal Year Ending June 30,	Principal	Interest	Total
2027	$ 2,507	$ 85	$ 2,592
2028	1,430	16	1,446
	$ 3,937	$ 101	$ 4,038

(8) PAYMENTS PASSED THROUGH TO OTHER AGENCIES

For the years ended June 30, 2026 and 2025, the District passed through its federal capital grants allocation to the City of Sausalito, $264,000 (2025, $1,428,100). These amounts were treated as federal capital grants when the funds were received from the Federal Transit Administration (FTA) and then recorded as capital expenses on behalf of other agencies when the funds were passed through. The District accrued and reported $180,000 of the $264,000 passed through to the City of Sausalito in fiscal year 2026 in the fiscal year 2025 Schedule of Expenditure of Federal Awards.

The District also passed through $53,000 and $286,000 in other monies to the City of Sausalito for capital-related projects in fiscal year 2026 and 2025 respectively. $300,000 was passed through to San Francisco Bay Ferry for operation of a hydrogen fuel ferry in fiscal year 2025. $151,000 (2025, $153,600) was passed through to Sonoma Marin Rail Transit District (SMART) for connecting SMART to the Larkspur Ferry Terminal for fiscal year 2026.

(9) LOW CARBON TRANSIT OPERATIONS PROGRAM

As part of the Transit, Affordable Housing, and Sustainable Communities Program established by the California Legislature in 2014 by Senate Bill 862, the District received funding from the Low Carbon Transit Operations Program (LCTOP). During fiscal years 2026 and 2025, LCTOP activity included the District receiving $2,903,000 and $2,784,000 in LCTOP funding and spending $137,000 and $89,000, respectively. These transactions resulted in unspent LCTOP proceeds and interest balances of $16,257,000 and $12,953,000 at June 30, 2026 and 2025 respectively. Total funding allocated from the LCTOP program to the District is $18,987,000 and $16,084,000 as of June 30, 2026 and 2025 respectively.

(10) STATE OF GOOD REPAIR

As part of the Road Repair and Accountability Act of 2017 established by the California Legislature by Senate Bill (SB) 1 (Chapter 5, Statutes of 2017), the District was awarded funding from the State of Good Repair (SGR) program. During fiscal years 2026 and 2025, SGR activity included the District receiving $1,672,000 and $1,638,000 in SGR funding and spending $3,600,000 and $231,000 respectively. These transactions resulted in unspent SGR proceeds and interest balances of $7,050,000 and $8,682,000 at June 30, 2026 and 2025 respectively. Total funding allocated from the SGR program to the District is $11,960,000 and $10,288,000 as of June 30, 2026 and 2025, respectively.

(11) OPERATING GRANTS

The District receives operating grants from various federal, state and local sources. Transportation Development Act funds are received from the state through Marin and Sonoma Counties to meet, in part, the District's operating requirements based on annual claims filed by the District and approved by MTC. Federal funds are distributed to the District by the Federal Transit Administration after approval by MTC. The District also receives Marin County Transit local funds and other amounts of grants from other state agencies.

Operating grants are summarized as follows for the years ended June 30, 2026 and 2025 (in thousands):

	2026	2025
Transportation Development Act	$ 11,249	$ 13,793
Federal Transit Administration	2,612	75
State Transit Assistance	47,019	11,752
Regional Measure 2	2,337	2,307
Regional Measure 3	3,272	1,871
Other	392	284
Total operating grants	**$ 66,881**	**$ 30,082**

(12) PENSION PLANS

The District offers two defined benefit pension plans. The amounts reported on the financial statements for each of the plans are as follows (in thousands):

	2026				2025			
	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense (Credit)	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense (Credit)
California Public Employee Retirement System Plan	$ 113,701	$ 34,004	$ 10,917	$ 20,303	$ 129,819	$ 41,108	$ 553	$ 23,170
Golden Gate Transit Amalgamated Retirement Plan	139,871	2,915	6,392	(7,264)	150,957	7,157	9,726	21,420
Total pension plans	**$ 253,572**	**$ 36,919**	**$ 17,309**	**$ 13,039**	**$ 280,776**	**$ 48,265**	**$ 10,279**	**$ 44,590**

CALIFORNIA PUBLIC EMPLOYEES' RETIREMENT FUND

Plan Description – All permanent District employees (except bus and ferry operators and deckhands) are eligible to participate in the Public Employees' Retirement Fund (Fund) of the State of California's Public Employees' Retirement System (CalPERS). The Fund is an agent multiple-employer defined benefit retirement plan that acts as a common investment and administrative agent for various local and state governmental agencies within the State of California. The Fund provides retirement, disability, and death benefits based on employees' age, years of service, and the highest year's compensation. Employees vest after five years of service and may receive retirement benefits commencing at age 50. These benefit provisions and all other requirements are established by state statute. A standalone report for the District's plan is not available; however, CalPERS' annual financial report can be found on their website www.calpers.ca.gov.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 to 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the California Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2026, are summarized as follows:

	Miscellaneous		
Hire date	Prior to January 1, 2013	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	2.5% @ 55	2.0% @ 60	2.0% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50-67+	50-67+	52-67+
Monthly benefits, as a % of eligible compensation	2.000%-2.500%	1.092%-2.418%	1.000%-2.500%
Required employee contribution rates	8.00%	7.00%	7.75%
Required employer contribution rates	35.320%	35.320%	35.320%

Employees Covered – As of June 30, 2024, and June 30, 2023, valuation dates, the following employees were covered by the benefit terms for each Plan:

Valuation as of June 30	2024	2023
Inactive employees or beneficiaries currently receiving benefits	687	685
Inactive employees entitled to but not yet receiving benefits	254	246
Active employees	453	436
Total	**1,394**	**1,367**

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the years ended June 30, 2026 and 2025, the District has paid the employer's and a portion of the employees' shares of the contributions. The contributions recognized, were as follows (in thousands):

	2026	2025
Employer	$ 18,952	$ 17,590

Net Pension Liability - The District's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability as of June 30, 2026, for the Plan is measured as of June 30, 2025, using an actuarial valuation as of June 30, 2024, rolled forward to June 30, 2025, using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Actuarial Assumptions – The total pension liabilities in the June 30, 2024 and June 30, 2023, actuarial valuations rolled forward to June 30, 2025 and June 30, 2024, using standard update procedures, were determined using the following actuarial assumptions, respectively:

Fiscal Year	2026	2025
Valuation Date	June 30, 2024	June 30, 2023
Measurement Date	June 30, 2025	June 30, 2024
Actuarial Cost Method	Entry-Age Normal Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:		
Discount Rate	6.90%	6.90%
Inflation	2.30%	2.30%
Projected Salary Increase	Varies by entry age and service	Varies by entry age and service
Investment Rate of Return	6.80%	6.80%

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2024 were based on the results of a 2021 actuarial experience study for the period 2000 to 2019. The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2023 valuations were based on the results of a 2021 actuarial experience study for the period 1999 to 2019. Further details of the Experience Study can be found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 6.90% and 6.90% for the years 2025 and 2024. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress-tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 6.90% discount rate is adequate, and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 6.90% will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, and combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Strategic Allocation	Expected Real Return [1] [2]
Public Equity	37.0%	4.56%
Private Equity	17.0%	5.56%
Fixed Income	28.0%	2.53%
Real Assets	15.0%	3.03%
Private Debt	8.0%	4.93%
Strategic Leverage	-5.0%	1.40%
Total	**100.0%**	

[1] Figures are based on the 2024 Mid-Cycle Liability Management study.

[2] An expected inflation of 2.30% used for this period.

Changes in the Net Pension Liability

The changes in the net pension liability for the plan follows (in thousands):

	Increase (Decrease)		
	Total Pension Liability	**Plan Fiduciary Net Position**	**Net Pension Liability**
Balance at June 30, 2025	**$ 533,207**	**$ 403,388**	**$ 129,819**
Changes in the year:			
Service cost	9,715	-	9,715
Interest on the total pension liability	36,605	-	36,605
Differences between actual and expected	8,779	-	8,779
Changes in benefit terms	-	-	-
Contribution - employer	-	17,967	(17,967)
Contribution - employee	-	4,487	(4,487)

Benefits payments, including refunds of employee contributions	(32,671)	(32,671)	-
Net changes	**22,428**	**38,546**	**(16,118)**
Balance at June 30, 2026	**$ 555,635**	**$ 441,934**	**$ 113,701**

	Increase (Decrease)		
	Total Pension Liability	**Plan Fiduciary Net Position**	**Net Pension Liability**
Balance at June 30, 2024	**$ 498,200**	**$ 378,381**	**$ 119,819**
Changes in the year:			
Service cost	9,110	-	9,110
Interest on the total pension liability	35,116	-	35,116
Differences between actual and expected experience	21,554	-	21,554
Changes in benefit terms	-	-	-
Contribution - employer	-	15,987	(15,987)
Contribution - employee	-	4,162	(4,162)
Net investment income	-	35,939	(35,939)
Administrative expenses	-	(308)	308
Benefits payments, including refunds of employee contributions	(30,773)	(30,773)	-
Net changes	**35,007**	**25,007**	**10,000**
Balance at June 30, 2025	**$ 533,207**	**$ 403,388**	**$ 129,819**

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the District for each Plan, calculated using the discount rate for the Plan, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate (in thousands):

	2026	2025
1% Decrease	5.90%	5.90%
Net Pension Liability	$ 179,076	$ 192,616
Current Discount Rate	6.90%	6.90%
Net Pension Liability	$ 113,701	$ 129,819
1% Increase	7.90%	7.90%
Net Pension Liability	$ 58,913	$ 77,190

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the years ended June 30, 2026 and 2025, the District recognized pension expense of $20,303,000 and $23,170,000, respectively. At June 30, 2026 and 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

	2026		2025	
	Deferred Outflow of Resources	Deferred Inflow of Resources	Deferred Outflow of Resources	Deferred Inflow of Resources
Pension contributions subsequent to measurement date	$ 18,952	$ -	$ 17,590	$ -
Differences between actual and expected experience	15,052	-	17,206	553
Changes in assumptions	-	-	302	-
Net differences between projected and actual earnings on plan investments	-	10,917	6,010	-
Total	**$ 34,004**	**$ 10,917**	**$ 41,108**	**$ 553**

$18,952,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2027. Other amounts reported as deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

Year June 30,	Deferred outflows (inflows) of resources
2027	$ 15,142
2028	(1,352)
2029	(5,335)
2030	(4,321)
Total	**$ 4,134**

GOLDEN GATE TRANSIT AMALGAMATED RETIREMENT PLAN

Plan Description – All qualified permanent and probationary Bus Operators are eligible to participate in the District's separate single-employer defined benefit plan. This plan is administered by the Golden Gate Transit Amalgamated Retirement Plan (GGTAR), which acts as a common investment and administrative agent for the GGTAR. Benefit provisions under the Plan are established by the GGTAR's pension board. GGTAR issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be requested by writing to Golden Gate Transit - Amalgamated Retirement Plan 1141 Harbor Bay Parkway, Suite 100, Alameda, CA 94502.

Benefits Provided – The GGTAR Plan provides retirement, disability, and death benefits. Retirement benefits are calculated as a percentage (depending on length of service) of average final earnings. Average final earnings for participants hired prior to January 1, 2016 are the greater of average monthly earnings the year before retirement and the average monthly earnings for the highest single calendar year. Average Final Earnings for participants hired on or after January 1, 2016 are the average monthly earnings for the highest consecutive 36-month period. For participants hired prior to January 1, 2016 the GGTAR Plan provides for retirement with reduced benefits for participants aged 50 to 65 if they have satisfied the specified length of service requirements. The retirement benefit for members at least age 65 and with 20 years of service is the greatest of the following, capped at 70% of average final earnings: (1) the percentage of average final earnings shown on a chart in the Plan (ranging from 36% to 70%); (2) 50% of average final earnings; and, (3) for members with 20 years of service $1,200 per month. There are reductions for members with at least 20 but less than 25 years of service and less than 80 points (age + service), with further reductions for members who have attained age 55 but have at least 15 years of service but not 20 years of service. For participants hired on or after January 1, 2016 the Plan provides for retirement with reduced benefits for participants beginning at age 52 if they have completed at least 5 years of service. The retirement benefits for these participants is the percentage corresponding to age at retirement shown on a chart in the Plan (ranging from 1.00% to 2.50%), multiplied by years of service, multiplied by the average final earnings. Participants whose employment is terminated before retirement are entitled to termination benefits based upon the greater of a) a percentage of covered earnings, plus interest or b) a refund of the employee's contribution to the Plan, plus interest. There are provisions regarding a Special Payment Plan that provided for assets set aside for each active, full-time participant in annual amounts of $2,000 plus accrued interest at 8% from 1999 through 2002. The spouse of a member who dies while actively employed will receive a 50% joint and survivor benefit if the member was eligible to retire or died in the line of duty. If the member was ineligible to retire but had 15 years of service, the spouse will receive a benefit of 25% of average final earnings. Beneficiaries of members with between 1 and 15 years of service receive a death benefit of the greater of a) 4% of total gross earnings while employed as a full-time bus operator, with interest at 5% compounded annually or b) a refund of the employee's contributions to the Plan, plus 6% interest. Active full-time employees with at least 10 years of service who become physically disqualified from their jobs are entitled to disability retirement benefits. The benefits are between 25% and 35% of average final earnings, depending on length of service. If a member is disabled in the line of duty, the benefit will be 50% of final earnings.

Employees Covered - The Plan used the January 1, 2026, valuation for the net pension liabilities measured as of December 31, 2025 and January 1, 2025 for the net pension liability measured as of December 31, 2024. The following employees were covered by the benefit terms:

Valuation as of January 1 -	**2026**	**2025**
Retired employees	456	448
Active employees	159	161
Total	**615**	**609**

Contributions – Section 17.2 of the GGTAR Plan provides that the District will make contributions to the Plan only as provided under the current collective bargaining agreement. The Retirement Board reports rates based on an actuarially determined rate recommended by an independent actuary, but there is no legal obligation of the District to make contributions other than those set forth in Article 35 of the current collective bargaining agreement. The actuarially determined rate reported by the Retirement Board in its financial report is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any net pension liability, assuming that the Retirement Board does not reduce benefits or the parties do not increase contributions to the Plan. The District is not required to contribute the difference between the actuarially determined rate and the contribution rate of the District and the employees. In March 2016, the District's contribution rate was 19.165% and the employee contribution rate was 4%. In March 2017, the District contribution rate was increased to 20.165% and the employee contribution rate was increased to 5%. In January 2018, the District contribution rate increased to 22.165% and the employee contribution rate increased to 7% for non-PEPRA employees and 7.25% for PEPRA employees. In May 2023, the District contributions increased to 34.5% and the employee contribution rate was 8.25%.

For the year ended June 30, 2026, the District paid $5,273,000 to the GGTAR Plan, and employees contributed $1,160,000 to the Plan as of June 30, 2026. For the year ended June 30, 2025, the District paid $5,646,000 to the GGTAR Plan, and employees contributed $1,222,000 to the Plan.

Net Pension Liability – The net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability for the Plan is measured as of December 31, 2025, using an annual actuarial valuation as of January 1, 2026. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Actuarial Assumptions – The total pension liabilities in the December 31, 2025 and December 31, 2024, measurement dates, were determined using the following actuarial assumptions:

Fiscal Year	2026	2025
Valuation Date	January 1, 2026	January 1, 2025
Measurement Date	December 31, 2025	December 31, 2024
Actuarial Cost Method	Entry-Age Normal Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:		
Discount Rate	5.27%	4.86%
Inflation	2.75%	2.75%
Projected Salary Increase	3.25% plus additional 6% in final year before retirement	3.25% plus additional 6% in final year before retirement
Investment Rate of Return	6.75%	6.75%
Mortality	Sex distinct RP-2014 for both Healthy Blue Collar and Disabled Mortality tables with adjustments using MP-2016.	Sex distinct RP-2014 for both Healthy Blue Collar and Disabled Mortality tables with adjustments using MP-2016.

Discount Rate – The discount rate for the December 31, 2025 measurement was 5.27% and the discount rate in the December 31, 2024 measurement was 4.86%. The projection of cash flows used to determine the discount rate assumed that the District will contribute to the Plan according to the rates agreed to in the most recent bargaining agreement. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employee and employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included.

The plan is expected to maintain a positive fiduciary net position until fiscal year 2037, at which point only a portion of the benefit payments can be made from the projected Fiduciary Net Position. Therefore, projected benefit payments through fiscal year 2037 are discounted at the long-term expected return on assets of 6.75% to the extent the Fiduciary Net Position is available to make payments, and at the municipal bond rate of 4.83% for the portion of benefits not covered by the projected Fiduciary Net Position in fiscal year 2037 and later.

The long-term expected rate of return on assets was determined using a building block approach in which an expected future real rate of return is developed for each major asset class. These expected rates are combined to produce the long-term expected geometric rate of return by weighing the expected future rates of return by the target asset allocation percentage, adjusted by inflation and a risk adjustment. The target allocation and projected geometric real rates of return, after deducting inflation but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption for each major asset class from the 2026 investment policy are summarized in the table shown below.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity	27.00%	3.37%
International Equity	13.00%	4.18%
Core Fixed Income	14.50%	2.15%
Multi-Sector Bond	19.00%	2.84%
Private Debt	5.00%	4.61%
Real Estate	7.50%	4.51%
Private Equity	9.00%	5.79%
Infrastructure	5.00%	5.33%
Multi-Asset (Risk Parity)	0.00%	-2.43%
	100.00%	

Changes in the Net Pension Liability

The changes in the Net Pension Liability for the Plan follows (in thousands):

	Increase (Decrease)		
	Total Pension Liability	**Plan Fiduciary Net Position**	**Net Pension Liability**
Balance at June 30, 2025	**$ 238,132**	**$ 87,175**	**$ 150,957**
Changes for the year:			
Service cost	3,623	-	3,623
Interest	11,263	-	11,263
Changes in benefit terms	(42)	-	(42)
Differences between actual and expected experience	(695)	-	(695)
Changes in assumptions	(9,468)	-	(9,468)
Contribution - employer	-	5,494	(5,494)
Contribution - member	-	1,142	(1,142)
Net investment income	-	9,660	(9,660)
Benefit payments, including refund of member contributions	(16,545)	(16,545)	-
Administrative expense	-	(529)	529
Net changes	**(11,864)**	**(778)**	**(11,086)**
Balance at June 30, 2026	**$ 226,268**	**$ 86,397**	**$ 139,871**

	Increase (Decrease)		
	Total Pension Liability	**Plan Fiduciary Net Position**	**Net Pension Liability**
Balance at June 30, 2024	**$ 257,230**	**$ 90,080**	**$ 167,150**
Changes for the year:			
Service cost	4,021	-	4,021
Interest	10,253	-	10,253
Differences between actual and expected experience	2,102	-	2,102
Changes in assumptions	(19,453)	-	(19,453)
Contribution - employer	-	6,036	(6,036)
Contribution - member	-	1,385	(1,385)
Net investment income	-	6,333	(6,333)
Benefit payments, including refund of member contributions	(16,021)	(16,021)	-
Administrative expense	-	(638)	638
Net changes	**(19,098)**	**(2,905)**	**(16,193)**
Balance at June 30, 2025	**$ 238,132**	**$ 87,175**	**$ 150,957**

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the Plan, calculated using the discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate (in thousands):

	2026	2025
1% Decrease	4.27%	3.86%
Net Pension Liability	$163,475	$176,384
Current Discount Rate	5.27%	4.86%
Net Pension Liability	$139,871	$150,957
1% Increase	6.27%	5.86%
Net Pension Liability	$120,721	$129,520

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports. While GASB 68 requires the District to report the unfunded pension obligations under the GGTAR Plan as a liability on its financial statement, the District is not legally responsible for the unfunded pension obligation. The District is only legally responsible for the contributions agreed to in collective bargaining under the terms of the GGTAR plan document and is not legally responsible for the current GGTAR plan unfunded net pension liability of $139,871,000. For the years ended June 30, 2026 and 2025, the District recognized pension expense of negative ($7,264,000) and $21,420,000, respectively. At June 30, 2026 and 2025, the District reported deferred outflows of resources and deferred inflows of resources related to the GGTAR Plan from the following sources (in thousands):

	2026		2025	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Contributions Subsequent to measurement date	$ 2,915	$ -	$ 3,024	$ -
Differences between actual and expected experience	-	347	1,051	-
Changes in assumptions	-	4,734	-	9,726
Net differences between projected and actual earnings on plan investments	-	1,311	3,082	-
Total	**$ 2,915**	**$ 6,392**	**$ 7,157**	**$ 9,726**

$4,242,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2027. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

Year June 30	Deferred Outflows (Inflows) of Resources
2027	$ (3,178)
2028	(1,453)
2029	(935)
2030	(826)
Total	**$ (6,392)**

OTHER RETIREMENT PLANS

The District's deckhands and terminal assistants participate in the Inlandboatmen's Union of the Pacific National Pension Plan (Inlandboatmen's), a union-administered cost-sharing multiple-employer defined benefit pension plan in which the District is a participating employer. Participants are comprised of both non-government and government employees. The plan provides retirement, death and disability benefits based upon years of benefit service and contributions made by the District on the employee's behalf. Employees vest after five years of service and receive retirement benefits commencing at age 65, with provisions for early retirement. The District makes contributions on behalf of the participants at a rate determined through collective bargaining. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Annual pension cost for the Inlandboatmen's plan was $888,000 and $842,000 for the years ended June 30, 2026 and 2025, respectively. The District contributed to Inlandboatmen's plan 20.4% and 22.4% of payroll for covered employees for the years ended June 30, 2026 and 2025, respectively and equaled 100% of the employer-required contributions. The District's covered payroll for employees participating in this plan was $4,356,000 and, $3,759,000, for the years ended June 30, 2026 and 2025, respectively. As of June 30, 2026, the number of employees covered by Inlandboatmen's plan was 65 active and 59 inactive, or retired, employees. Audited financial statements can be obtained directly from IBU Administrator, 5331 SW Macadam Ave, Suite 220, Portland, OR 97239.

The District's ferry operators participate in the MEBA Pension Trust for Towboat Operators (MEBA), a union-administered cost-sharing multiple-employer defined benefit pension plan in which the District is a participating employer. Participants are composed of both non-government and government employees. The plan provides retirement death and disability benefits based on employees' age, years of service and average compensation. Employees vest after 5 years of service and receive retirement benefits commencing at age 65, with provisions for early retirement. The District makes contributions on behalf of the participants at a rate determined through collective bargaining. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Annual pension cost for the MEBA plan was $424,000 and $407,000, for the years ended June 30, 2026, and June 30, 2025, respectively. The District contributed to MEBA 14.1% and 16.7% of payroll for covered employees for the years ended June 30, 2026 and, 2025, respectively and equaled 100% of the employer-required contributions. The District's covered payroll for employees participating in this plan was $3,004,000 and $2,437,000, for the years ended June 30, 2026 and 2025, respectively. As of June 30, 2026, the number of employees covered by MEBA plan was 24 active and 18 inactive, or retired, employees. Audited financial statements can be obtained directly from MEBA Administrator, 1007 Eastern Avenue, Baltimore, MD 21202.

The plans adopted withdrawal liability procedures for employer members who cease contributions and/or completely withdraws or partially withdraws from the plans to pay its required share of unfunded vested benefit liability. Benefit terms and contribution amounts are established and may be amended for either plan by the Union and the District. The net pension liabilities for those two plans and related deferrals are excluded from the financial statements because the plans are administered as a non-governmental pension plan and the majority of the plan participants are non-governmental employers.

(13) POST-EMPLOYMENT HEALTH CARE PLAN

Plan Description – In August 2007, the District's Board of Directors adopted the Golden Gate Bridge Highway and Transportation District Other Post-Employment Benefits (OPEB) Trust (Trust) and created the Golden Gate Bridge, Highway and Transportation OPEB Retirement Investment Trust Board to oversee the assets of the Trust. The Trust, a single-employer defined benefit plan, is irrevocable and is exempt from federal and state income taxes under Internal Revenue Code Section 115. The sole purpose of the Trust is to provide funds to pay post-employment benefits to qualified retirees and their surviving spouse/domestic partner. Benefit allowance provisions are established through employment agreements and memoranda of understanding (MOUs) between the District and its employees. As a separate legal entity from the District, the Trust's assets are not available to any of the District's creditors.

Benefits Provided – For employees (other than Bus Operators) hired on or after August 9, 1991, the benefits are provided to retiree and dependent coverage based on age plus years of services as follow: 1) the District does not contribute toward the cost of post-employment health benefits for retirees whose combination of age and number of years of service amounts to less than 70 points; 2) the retiree contributes the normal contribution paid by all retirees plus 30% of the COBRA rates for the coverage they select if their combination of age and number of years of service falls within 70-74 points; 3) the retiree contributes the normal contribution paid by all retirees plus 20% of the COBRA rates for the coverage if their combination of age and number of years of service falls within 75-79 points; and 4) the retiree contributes the normal contribution paid by all retirees if their combination of age and number of years of service is equal to or over 80 points. To qualify for coverage, a minimum of 10 years of service for retiree coverage and 15 years of service for retiree and dependent coverage is required.

Benefit terms are established and may be amended by the District.

The benefits are provided to all employees (other than Bus Operators) hired between July 1, 1983, through August 8, 1991, who retire from the District on or after attaining age 55 with at least 10 years of service. For those employees age 55 with at least 15 years of service, survivor and dependent care benefits are also received. If the employee began employment at the District prior to January 1, 1983, the benefits are provided on or after attaining age 50 with at least 5 years of service. Currently, 521 retirees meet the eligibility requirements.

The Bus Operator retiree medical benefits plan is governed by separate provisions in the MOU between the District and the Amalgamated Transit Union and the Union pension plan document. Currently, 374 retirees meet the eligibility requirements for Bus Operator retirees.

For Bus Operator employees hired on January 1, 2003, or before, retirees, with a combination of the minimum retirement age of 52 or more and number of years of service amounting to 70 or less, the retiree receives only the minimum required contribution, implemented in steps over a 20-year period, starting at $1 for the first year. If the minimum retirement age at 52 years or more plus years of service is equal to; 1) 75 or more, the retiree receives health benefits at the same levels as active employees; and 2) 70-74 points, the retiree pays 20% of the health benefits paid for active employees. Employees will be eligible for survivor and dependent care benefits when they achieve 15 years of service.

For Bus Operator employees hired after January 1, 2003 with a combination of the minimum retirement age of 55 or more and number of years of service amounting to less than 70, the retiree receives only the minimum required contribution, implemented in steps over a 20-year period, starting at $1 for the first year. If the minimum retirement age is 55 years plus years of service is between; 1) 70 to 74 points, the retiree pays 30% of the health benefits amount paid for active employees; 2) 75 to 80 points, the retiree pays 20% of the health benefits amount paid for active employees and 3) 80 points or higher, the District pays the same amount that it pays for active employees. Employees will be eligible for survivor and dependent care benefits when they achieve 15 years of service.

Employees Covered – At the July 1, 2025 and July 1, 2023 valuation dates, the following employees were covered by the benefit terms for the OPEB Plan:

Valuation as of July 1,	**2025**	**2023**
Retired employees	868	880
Active employees	673	638
Total	**1,541**	**1,518**

Net OPEB Liability – The District's net OPEB liability was measured as of June 30, 2026 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated July 1, 2025 that was rolled forward to determine the June 30, 2026 total OPEB liability, based on the following actuarial methods and assumptions:

Fiscal year	**2026**	**2025**
Valuation Date	July 1, 2025	July 1, 2023
Actuarial Cost Method	Entry-Age Normal Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:		
Discount Rate	6.75%	6.75%
Inflation	2.50%	2.50%
Healthcare Cost Trend	Non-Medicare - 8.50% for 2025, decreasing to an ultimate rate of 3.45% in 2076 Medicare - 7.50% for 2025, decreasing to an ultimate rate of 3.45% in 2076 Dental at 3% and Vision at 3%	Non-Medicare - 8.50% for 2025, decreasing to an ultimate rate of 3.45% in 2076 Medicare - 7.50% for 2025, decreasing to an ultimate rate of 3.45% in 2076 Dental at 3% and Vision at 3%
Mortality	CalPERS 2000-2019 Experience Study for CalPERS members. All Other Members: RP 2014 Blue Collar	CalPERS 2000-2019 Experience Study for CalPERS members. All Other Members: RP 2014 Blue Collar

Contributions – The District's contributions to the plan are based on the actuarial valuation that provides an estimate of an actuarially determined contribution (ADC) to be used by the District to fully fund the Trust. It is the District's intent to fully fund each year's ADC and the current year's contributions to the plan were $12,270,000 and $11,845,000 for fiscal years ended June 30, 2026 and June 30, 2025.

Discount Rate – The discount rate used to measure the total OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Expected Real Return
Growth		
Domestic Equity	36.0%	26%-46%
International Equity	19.0%	9%-29%
Private Equity	6.7%	0%-10%
Private Debt	6.7%	0%-10%
Real Assets	6.6%	0%-10%
Cash Equivalents	0.0%	0%-20%
Income		
Fixed Income	25.0%	5%-45%
	100%	100%

Money Weighted Rate of Return – The plan's money weighted rate of return for the years ended June 30, 2026 and June 30, 2025 was 15.24% and 18.57%.

The District's change in net OPEB liability is as follows (in thousands):

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2025	**$ 194,181**	**$ 142,088**	**$ 52,093**
Changes for the year:			
Service cost	3,671	-	3,671
Interest	12,880	-	12,880
Changes in benefit terms	892	-	892
Differences between actual and expected experience	18,421	-	18,421
Changes in assumptions	(95)	-	(95)
Contribution - employer	-	12,270	(12,270)
Net investment income	-	21,946	(21,946)
Benefit payments	(14,092)	(14,092)	-
Administrative expense	-	(310)	310
Net changes	**21,677**	**19,814**	**1,863**
Balance at June 30, 2026	**$ 215,858**	**$ 161,902**	**$ 53,956**

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2024	**$ 190,590**	**$ 128,095**	**$ 62,495**
Changes for the year:			
Service cost	3,572	-	3,572
Interest	12,678	-	12,678
Contribution - employer	-	11,845	(11,845)
Net investment income	-	15,136	(15,136)
Benefit payments	(12,659)	(12,659)	-
Administrative expense	-	(329)	329
Net changes	**3,591**	**13,993**	**(10,402)**
Balance at June 30, 2025	**$ 194,181**	**$ 142,088**	**$ 52,093**

Sensitivity of the Net OPEB Liability to Change in Discount Rate – The following presents the net OPEB liability of the District's, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower, or one percentage point higher, than the current discount rate (in thousands):

	2026	2025
Net OPEB Liability at 1% increase	$ 33,618	$ 33,723
Net OPEB Liability at current rate	53,956	52,093
Net OPEB Liability at 1% decrease	78,152	73,951

Sensitivity of the Net OPEB Liability to Change in Healthcare Costs – The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower, or one percentage point higher, than the current healthcare cost trend rates (in thousands):

	2026	2025
Net OPEB Liability at 1% increase	$ 81,724	$ 79,065
Net OPEB Liability at current rate	53,956	52,093
Net OPEB Liability at 1% decrease	30,896	29,764

Recognition of Deferred Outflows and Deferred Inflows of Resources – Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The recognition period differs depending on the source of the gain or loss. The net difference between projected and actual earnings on OPEB plan investments is amortized over a five-year period. All other amounts are amortized over the expected average remaining service lifetime (EARSL) of 4.5 years.

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB – For the fiscal years ended June 30, 2026 and June 30, 2025, the District recognized OPEB expense of $3,043,000 and $4,319,000, respectively. As of fiscal years ended June 30, 2026 and June 30, 2025, the District reported deferred outflows of resources related to OPEB from the following sources:

	2026		2025	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	$ 18,861	$ -	$ 8,022	$ 593
Changes in assumptions	3,119	74	5,518	1,025
Net differences between projected and actual earnings on plan investments	-	17,042	-	5,878
Total	**$ 21,980**	**$ 17,116**	**$ 13,540**	**$ 7,496**

The reported as deferred outflows of resources related to OPEB will be recognized as expense as follows:

Year	Deferred Outflows (Inflows) of Resources
2027	$ 4,285
2028	600
2029	375
2030	(396)
Total	**$ 4,864**

(14) SELF-INSURANCE

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and patrons; natural disasters; employee, retiree and dependent health benefits. The District is self-insured for its health benefits, general liability, workers' compensation, Bridge physical use and occupancy, auto liability and public transportation liabilities. The District has set aside assets for claim settlements associated with the above risks of loss up to certain limits. In April 2006, the District did not renew its Bridge Physical Use and Occupancy policy and became self-insured. As a result, the District has designated $26.3 million in net position as of June 30, 2026 for Bridge self-insurance. Self-insurance and limits are as follows:

Type of Coverage	Self-Insurance	Excess Coverage
Property & Liability		
General/Vehicle Liability	$3,000,000 per occurrence General Liability $5,000,000 Automobile Liability	$85,000,000
Workers' Compensation	$1,250,000 per claim	$25,000,000
Health Benefits	$1,000,000 per individual	$175,000 stop loss; unlimited lifetime
Commercial Property	$750,000 deductibles earthquake, flood, equipment breakdown property damage	$80,000,000 limit
	Difference in coverage (DIC) $250,000 deductible earth movement and floods excludes special flood zones	$10,000,000
	Bus physical damage $50,000 deductible Antique Auto- zero deductible $500k limits	$11,922,567 limit
Crime and Dishonesty	$10,000 per occurrence ED, Faithful and PC Fraud	$1,000,000 employee theft
	$5,000 per occurrence M&S	$500,000 forgery/alteration
	$50,000 fraud impersonation	$500,000 robbery or safe Burglary $15,000 money orders /counterfeit paper currency $250,000 computer fraud and funds transfer
Public Officials Liability	$250,000 per claim D&O Liability $250,000 per claim employment practices $1,000,000 per claim class action suit/ Layoffs	$2,000,000 per occurrence/ annual aggregate
Fiduciary Liability	$25,000 deductible	$5,000,000 limit
Cyber Liability	$25,000 per occurrence	$2,000,000 per occurrence/ annual aggregate
Environmental	$250,000 self insured retention per event	$5,000,000 limit
Maritime		
Marine General Liability	$10,000 Each Occurrence	$50,000,000 per occurrence
Environmental Impairment (Vessel Pollution)	Part of Marine General Liability through club	$5,000,000 per occurrence
Ferry Hull, Machinery	$200,000 any one accident or occurrence	Per Vessel Schedule
Protection & Indemnity	$55,000 any one accident or occurrence / $350,000 annual aggregate deductible (AAD)	$1,000,000,000 any one accident or occurrence

All property is insured at full replacement value. To date, no settlement amounts have exceeded commercial insurance coverage for the last five years.

The District's estimated self-insurance liability is based on requirements of GASB Statement No. 10 and 30. These statements require a liability for claims to be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. The actuarially determined liability includes allocated expenses and a provision for incurred but not reported claims. Changes in the balances of claims liabilities for the years ended June 30, 2026 and 2025 are as follows (in thousands):

	Balance July 1, 2025	Incurred Claims and Changes in Estimates	Claim Payments and Related Costs	Balance June 30, 2026	Current Portion	Noncurrent Portion
Workers' compensation liability	$ 23,414	$ 5,197	$ (7,573)	$ 21,038	$ 4,853	$ 16,185
General and property insurance liability	1,901	1,521	(2,101)	1,321	754	567
Pollution remediation liability	15,680	920	-	16,600	-	16,600
Subtotal: Self-insurance liability	40,995	7,638	(9,674)	38,959	5,607	33,352
Other medical claims liability	119	19,574	(19,530)	163	163	-
Combined self-insurance and other medical liability	**$ 41,114**	**$ 27,212**	**$ (29,204)**	**$ 39,122**	**$ 5,770**	**$ 33,352**

	Balance July 1, 2024	Incurred Claims and Changes in Estimates	Claim Payments and Related Costs	Balance June 30, 2025	Current Portion	Noncurrent Portion
Workers' compensation liability	$ 23,064	$ 5,751	$ (5,401)	$ 23,414	$ 4,552	$ 18,862

Pollution remediation liability	14,543	1,137	-	15,680	-	15,680
Subtotal: Self-insurance liability	38,925	8,512	(6,442)	40,995	5,607	35,388
Other medical claims liability	654	18,456	(18,991)	119	119	-
Combined self-insurance and other medical liability	**$ 39,579**	**$ 26,968**	**$ (25,433)**	**$ 41,114**	**$ 5,726**	**$ 35,388**

(15) ALLOCATION OF DISTRICT DIVISION EXPENSE

For the years ended June 30, 2026 and 2025, District Division expense has been allocated to the general and administrative expenses of the other divisions by resolution of the Board of Directors as follows (in thousands):

	2026	2025
Bridge Division	$ 19,253	$ 20,880
Bus Division	17,017	15,865
Ferry Division	9,672	8,945
Total	**$ 45,942**	**$ 45,690**

(16) ENVIRONMENTAL REMEDIATION

During 1992, the District discovered lead contamination in the soil beneath the north and south approaches to the Golden Gate Bridge. The District entered into a Voluntary Cleanup Agreement (VCA) with the State of California Department of Toxic Substances Control (DTSC) to implement a Remedial Action Plan (RAP) for the first phase of a two-phased cleanup program and a Remedial Investigation/Feasibility Study (RI/FS) and a RAP for the second phase. The District has completed the Phase I cleanup under the VCA and has expensed approximately $6.5 million for that work. The VCA requires that the District completes an RI/FS and RAP of the Phase II area. The District prepared and submitted an initial draft RI/FS to DTSC and has been discussing with DTSC a soil cleanup value for the site and next steps for finalizing the document and implementing the cleanup. After the cleanup plan is approved, the District estimates completing the cleanup within five years.

The estimate of the lead contamination remediation liability amounted to $14.0 million as of July 1, 2008. It was subsequently reviewed in 2012 and 2017 with no significant change in exposure. The amount is determined upon the expected cash flow technique. The liability can change over time due to changes in costs of goods and services, changes in remediation technology, or changes in laws and regulations governing the remediation effort. In July 2023, the District provided a draft Feasibility Study/Remedial Action Plan outline, an updated RI/FS outline and supporting technical documents to DTSC for their review and comments. The District is continuing to work with DTSC to finalize an updated soil cleanup value and a soil sampling plan. In July 2026, the cost estimate was updated based on changes to the 30-year discount rate for maintenance costs and determined to be $16,600,000.

(17) CONTINGENCIES

Litigation - The District is involved in various litigation arising from the normal course of business. In the opinion of management, the disposition of all litigation pending is not expected to have a material effect on the overall financial position of the District at June 30, 2026.

[1] GASB 68 requires the District to report the unfunded pension obligations under the GGTAR Plan as a liability on its financial statement even if the District is not legally responsible for the unfunded pension obligation. The District is only legally responsible for the contributions agreed to in collective bargaining under the terms of the GGTAR plan document and is not legally responsible for the current GGTAR plan unfunded net pension liability.

RECONCILIATION OF THE SUPPLEMENTAL SCHEDULE OF REVENUES AND EXPENSES BY DIVISION (NON-GAAP BASIS) TO THE BASIC FINANCIAL STATEMENTS

As discussed in Note 2, the accompanying basic financial statements have been prepared on the accrual basis of accounting in conformity with GASB pronouncements. The following summary reflects the differences between the Supplemental Schedule of Revenues and Expenses and the GAAP basic financial statement for the years ended June 30, 2026 and 2025 (in thousands):

	2026	2025
Non-GAAP excess revenue (loss)	$ 35,019	$ (28,556)
Contribution to capital reserve and Bridge self-insurance reserve	22,300	22,300
Depreciation and gain/(loss) on capital assets acquired with capital grants are not recorded within operating divisions	(26,382)	(31,860)
Capital grants not recognized within operating	104,819	66,842
Total Non-GAAP reconciling items	100,737	57,282
Net change in net position - GAAP	**$ 135,756**	**$ 28,726**

Statistical Section

This page left blank intentionally.

Statistical Section

This section of the annual comprehensive financial report of the District presents detailed information about the District's financial results, major revenue sources, outstanding debt obligations, demographic statistics, and operating activities to help the reader understand the District's overall financial condition.

CONTENTS **Page**

FINANCIAL TRENDS

These schedules contain trend information to help the reader understand how the District's financial performance has changed over time.

Revenues by Source, Last Ten Years (Table 1) 87
Expenses by Function, Last Ten Years (Table 2) 89
Changes in Net Position, Last Ten Years (Table 3) 91
Net Position, Last Ten Years (Table 4) 93

REVENUE CAPACITY

These schedules contain information to help the reader assess the District's local revenue sources (tolls and transit fares).

Traffic/Patron Count and Toll/Fare per Vehicle/Patron, Last Ten Years (Table 5) 95
Categories of Traffic (Southbound), Last Ten Years (Table 6) 97
Operating Indicators by Transit Mode, Last Ten Years (Table 7) 98

DEBT CAPACITY

This schedule presents information to help the reader assess the affordability of the District's current outstanding debts and the District's ability to issue additional debt in the future.

Commercial Paper Debt Payment Coverage Covenant, Last Ten Years (Table 8) 100
Ratio of Outstanding Debt and Debt Service, Last Ten Years (Table 9) 102

DEMOGRAPHIC AND ECONOMIC INFORMATION

These schedules contain demographic and economic indicators to assist the reader in understanding the environment within which the District's financial activities take place.

Demographic and Economic Information, Last Ten Years (Table 10) 104
Principal Employers, Current and Previous Period Comparison (Table 11) 105

OPERATING INFORMATION

This schedule contains service and facility statistics to help the reader understand how the District's financial report relates to its services and operating activities.

Capital Assets by Division, Last Ten Years (Table 12) 107
Miscellaneous Operating Information, Last Ten Years (Table 13) 109

Source: Unless otherwise noted, the information in these schedules was derived from the District's financial statements.

1. GASB 68 requires the District to report the unfunded pension obligations under the Golden Gate Transit Amalgamated Retirement Plan (GGTAR) as a liability on its financial statement even if the District is not legally responsible for the unfunded pension obligation. The District is only legally responsible for the contributions agreed to in collective bargaining under the terms of the GGTAR document and is not legally responsible for the current GGTAR plan unfunded net pension liability of $140 million. The liability has resulted in a deficit for this reporting year.
2. GASB 75 was implemented in FY2018 requiring the net other postemployment benefits (OPEB) liability to be reported on the face of the financial statements.
3. The restatement of the beginning net position is due to the changes in accounting principles related to GASB Statement No. 75 – *Accounting and Reporting for Other Post-employment Benefits*, GASB Statement No. 87 – *Leases*, and GASB Statement No.96 – *Subscription-Bases Information Technology Arrangements*.

Coverage (without operating reserve)	61.2	24.3	24.7	79.0	704.1

On July 12, 2000, the District issued commercial paper notes in Series A and Series B in the amount of $30.5 million for each series to provide funds for the Golden Gate Bridge seismic retrofit project and the renovation of main cables of the Bridge. The commercial paper covenant requires the District to establish a budget that produces sufficient revenues to pay twice as much debt service as projected. Debt service requirement includes a $7.3 million Operating Reserve Fund and a $5.6 million Debt Reserve Fund, as required by the covenant.

Interest expense displayed in this table is only related to debt service of the District's commercial paper. It does not include other interest expenses related to leases, investments, et al as presented in the District's Statement of Revenues, Expenses and Changes in Net Position.
