AURIGA CORPORATION

A CALIFORNIA-CERTIFIED SMALL BUSINESS SINCE 1990

WHO WE ARE

Auriga Corporation is a California Corporation founded in 1990 with headquarters in Milpitas, California. We provide project and construction management, design, and engineering services to transportation agencies and to investor-owned and municipal utilities throughout California and in 15 countries worldwide.

WHY PARTNER WITH AURIGA

For 35 years, Auriga has delivered project and construction management, design and engineering, and systems integration services to the SF Bay Area and the nation's largest transit and rail programs. As a certified small and disadvantaged business, we offer agencies and prime contractors a proven, reliable teaming partner ready to scale from planning and design through construction, testing, and commissioning.

Solving contracting and supplier-diversity challenges.

Why Us?

DIFFERENTIATION

Our team combines:

- Agency contracting experience
- Small-business growth + scaling expertise
- Finance and funding resources
- AI and technology implementation capabilities

PROVEN RESULTS

Proven historical performance:

- Developed Contractor's Administrators Center through \$150K PUC funded initiative.
- Restructured Hayward manufacturing operations to transform regional capabilities to national by restructuring organization and optimizing resources to triple [3X] revenues from 2024 to 2026.
- Identified untapped markets for a San Leandro company [currently working with transportation and city agencies]. Closed contracts with large national retailer by providing strategic partnerships and resources to parlay initial \$250K contract for their first launch to 6 additional stores generating \$1.5M+ of revenues with this one client.
- Optimized organizational effectiveness through resource identification | allocation [e.g., human, financial, technology, etc.], training and coaching for adoption and change to successfully compete in their respective markets [from small businesses to multi-million companies].

HIRE LOCAL. BUY LOCAL. BUILD LOCAL.

We are seeking agency partners interested in expanding their pool of qualified local vendors, increasing supplier-diversity participation, and improving small-business contract readiness.

DOMAIN EXPERTS INTRODUCTION

Why DEC

- ❖ 18+ years experience with Public Transit , Public Agencies, State government.
- ❖ Good domain knowledge of Transit.
- ❖ Key Customers– BART, County of Santa Clara, CalPERS, PG&E, Sam Trans, LA Metro
- ❖ Actionable State of Good repair Insights

Services

- ❖ Executive Search
- ❖ AI Consulting
- ❖ Marketing
- ❖ **Grant Lifecycle Program**
- ❖ Staff Augmentation
- ❖ HR Consulting
- ❖ Management Consulting
- ❖ IT Consulting
- ❖ HR Consulting
- ❖ Products - ART

Grants

❖ Services

- Funding Strategy Set Up and Refresh
- Grant Writing & Submission Enablement
- Opportunity Scanning
- Post Award Management and Tracking Execution
- Monthly Digest & Decision Support
- Close Out and Audit Readiness

❖ Benefits

- Expand funding capacity
- Compliance & Audit Readiness
- Improve opportunity fit and quality
- Centralize Workflows
- Repeatable pipeline
- Visibility and Observability
- Faster Response
- Automation Leveraged

ROOFING & WATERPROOFING

Building-envelope protection • New construction • Reroofing • Repairs

D-Tech Roofing
& Waterproofing

D-TECH

Roofing & Waterproofing

Specialty contracting for commercial, institutional, multifamily and residential properties.

ROOFING SYSTEMS + WATERPROOFING PROTECTION

ROOFING

High/Low-slope membranes • insulation • cover boards • Metal Roofing • HRA Roofing • Asphalt Shingles • SBS/MOD BIT • Wood Shingles/Shakes

WATERPROOFING

Below-grade systems • decks • traffic coatings • Hot Fluid Applied • Sheet Membranes

SERVICE

Leak investigation • repairs • maintenance

WHAT WE DO & WHERE WE SPECIALIZE

Roofing, waterproofing and construction coordination from bid through closeout

LOW-SLOPE ROOFING

PVC / thermoplastic • modified bitumen • reroofing • tapered insulation

BUILDING WATERPROOFING

Below-grade • hot-fluid-applied • sheet membranes • sealants and joints

DECK & TRAFFIC PROTECTION

Pedestrian / vehicular coatings • plaza decks • pedestal-paver systems

REPAIR & MAINTENANCE

Leak investigations • targeted repairs • inspections • preventive service

PROJECT DELIVERY

Estimating • takeoffs • submittals • RFIs • scheduling • supplier coordination • quality control • warranty closeout

WHY FUJI

Deep seismic expertise. Small-business agility.
Focused scopes that strengthen the prime team.

Who We Are

IndustrialEnet brings video surveillance, SCADA and industrial networking together as one complete system.

WHAT WE BRING TOGETHER

- **Video surveillance** - cameras, VMS, analytics, License Plate Recognition, recording and storage
- **SCADA and OT systems** - controllers, sensors and field equipment connected to the control room
- **Networks and infrastructure** - industrial networks, cybersecurity, servers, virtualization and backup
- **Delivery and support** - design, integration, commissioning and lifecycle services

30

Years in
Business

49

Full-Time
Employees

14

Engineers
on Staff

Why It Matters

When video, SCADA, networks, and servers are designed separately, the result is harder to operate, secure and support. IndustrialEnet engineers them as one system, from field devices to the control room.

PROVEN PROJECT EXPERIENCE

For more than 20 years, our team has supported a major Bay Area bridge and tunnel program, bringing together networks, video systems, servers, and field equipment.

We also helped deliver a regional connected-corridor program across 12 cities with 500+ switches and more than 1,500 cameras and detection devices.

HOW TO CONNECT WITH US

Let's discuss what you need to connect, monitor, or modernize.

Prime and subcontracting partnerships welcomed

ND Technology | Hitesh Dalal

WHAT WE DO

ND Technology provides video security solutions to prime contractors and public agencies.

EXPERIENCE & PROOF

We recently supported D3 and a prime contractor with video and physical security products needed to protect the required area for a DO order.

VALUE & DIFFERENTIATORS

- Accurate bill of materials
- Competitive pricing
- Understanding of end-client requirements
- On-time delivery
- Reduced purchasing errors and project risk

PRESENTATION

“ND Technology provides video security solutions to prime contractors and public agencies. We recently supported D3 and a prime contractor with video and physical security products for a DO order. Our competitive pricing and accurate bill of materials help reduce project risk. We understand the end client's needs and deliver on schedule. We would welcome the opportunity to share our capability brief. Who is the best person at your organization to continue the conversation with?”

Capability brief available. Please connect us with the appropriate agency or prime contractor contact.

ND Technology Capability Summary

Minority-owned small business serving public agencies, education and prime contractors

CORE CAPABILITIES

- Data center technology products
- Cloud and disaster recovery solutions
- Networking solutions
- IoT solutions for traffic and public safety

PRODUCTS & SERVICES

- Hardware, software, peripherals and audiovisual solutions
- Maintenance and software renewals
- Electrical equipment and supplies
- RF, fiber-optic, antenna and satellite communication products

WHY ND TECHNOLOGY

- 24+ years of technology and procurement experience
- Strong distributor and manufacturer relationships
- On-time delivery to customer specifications
- Long-standing end-user relationships

PAST PERFORMANCE & BUSINESS INFORMATION

Caltrans Districts D1, D2, D3, D4, D6, D7 and D11, plus Caltrans HQ

WHERE IS THE GAP?

Three places people issues show up before they become operational issues.

1

Leadership

Supervisors know the work—but leading people requires different skills.

2

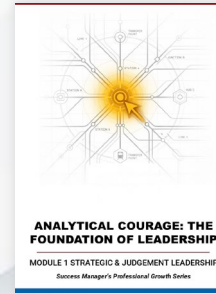

Communication + Teamwork

A problem that should be addressed on Monday can become bigger by Friday.

3

Knowledge Transfer + Readiness

Critical know-how can live in one person's head with no clear plan to pass it on.

Those gaps show up in

OPERATIONAL PERFORMANCE

WE START WITH THE GAP.

IDENTIFY

the gap

UNDERSTAND

what is causing it

CUSTOMIZE

the right solution

THEN WE IMPLEMENT THE PLAN.

Training should not start with a class.

It should start with the problem.

Public Agencies:

When your people are stronger, your operation is stronger.

**LET ME HELP YOU
IDENTIFY THE GAP.**

UrbanDesignCE.com

W & S Solutions, LLC

Transportation data, modeling, and operations analytics for public-sector decisions.

DBE #38506

CA DGS SB #1523444

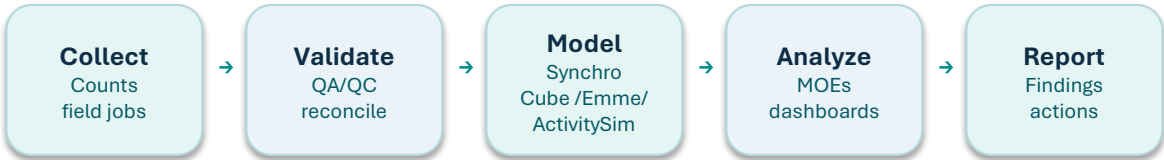

Founded 2009

Core services

- Traffic data collection: TMCs, counts, field observations, and Synchro/SimTraffic-ready inputs.
- Advanced data analytics: QA/QC, dashboards, Python/GIS/Power BI, performance metrics.
- Transportation modeling: Emme, Cube, ActivitySim, DTA, microsimulation, scenario testing.
- Traffic operations & planning reports: signal timing, corridor MOEs/LOS, technical memoranda.

Project workflow: data → model → decision

A practical chain from field observations to agency-ready findings

Representative project deliverables

Service area	Inputs handled	Decision-ready output
Traffic data collection	TMCs, link counts, field notes, data files in all formats	Clean input datasets and count summaries
Advanced analytics	QA/QC, Python, GIS, Power BI, Gemini, ChatGPT, Claude	Dashboards, trend checks, corridor MOEs
Modeling & simulation	Synchro, SimTraffic, Emme, Cube	Scenario files, model checks, sensitivity tests
Operations / planning reports	LOS, delay, queues, travel times	Technical memos and agency-ready findings

Tool-ready support

Synchro / SimTraffic

Emme / Cube

DTA / ABM

Python / GIS / Power BI

Why it matters

Better data and better models help agencies choose projects, explain tradeoffs, and operate corridors with confidence.

Good fit for public agencies & primes

- DBE (recertified) / small-business (current) teaming capacity with transportation-domain depth.
- Practical bridge between field data, models, traffic operations, and written reports.
- Experience supporting Caltrans, MTC, cities, Primes for regional and corridor studies
- AI-ready analytics for multimodal performance, ITS/ATMS, PeMS, Inrix/StreetLight/Google data, and scenario planning.

Where W&S fits agency and prime workflows

Need	W&S support	Outcome
On-call or task-order capacity	DBE / small-business partner with transportation-domain depth	Responsive, focused support
Corridor / intersection studies	Counts, model inputs, LOS/MOE analysis, reporting	Defensible findings
Model or traffic-file quality checks	Independent review of inputs, scenarios, and outputs	Fewer rework cycles
Data analytics / AI-ready performance tracking	Clean datasets, dashboards, multimodal metrics, ITS context	Clearer decisions

BEEZWAX DATATOOLS · OAKLAND, CALIFORNIA · SINCE 1996

Custom software that fits the way your org already works

30 yrs

building software for organizations of every size every size

600+

clients across government, education, non-profit non-profit and enterprise

2,500+

projects delivered, from a single tool to full full platforms

Custom business software software

Claris FileMaker, web and mobile mobile apps built around your workflow. Modernize what you have or replace it.

Systems integration

APIs and data connections so your systems talk to each other and nobody types the same thing twice.

AI integration

AI woven into the systems you already run, with human review kept on the decisions that matter.

AI governance and security

Policies, access controls and audit trails so AI use stays accountable and compliant.

WHY IT MATTERS TO AGENCIES AND PRIMES

A small, senior team that has done public sector work before.

Public agency experience

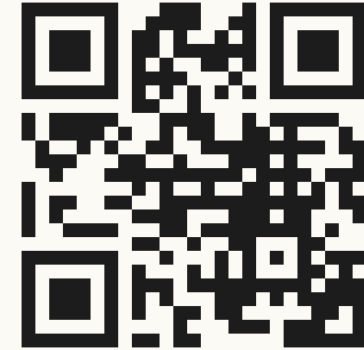

Caltrans, the DMV, 511.org, Oakland Fire, Marin County Fire, UC Office of the President and Siskiyou Siskiyou County Office of Education, among others.

Built for scrutiny

Our security practices meet the standards our government and enterprise clients require. Audit trails and Audit trails and access controls come standard.

Easy to subcontract

Agile delivery in working increments, a local Oakland office, and a team that slots into a prime's project without drama.

Services: Storage Organizing • Move Management

Making Black-owned businesses easier to discover.

BuyBlack.org turns a governed national registry into local discovery — for people, institutions, search engines, and AI.

111,000+

Black-owned businesses
in a governed national
registry

1

LOCAL DISCOVERY

Find businesses by place and category

2

STRUCTURED DATA

A reusable registry — not another one-off list

3

EXTERNAL EXPERIENCES

Partner-facing discovery beyond BuyBlack.org

The product itself is the proof: governed data → local discovery → reusable experiences.

Oakland category counts: BuyBlack.org Oakland City Guide · September 2026

ASK ZURI

“Find Black-owned
professional services
in Oakland.”

Interactive discovery, already on the
city guide.

The showcase ends today. Discovery shouldn't.

BuyBlack can help make small-business discovery persistent before, during, and after an event.

Where BuyBlack can help

BuyBlack helps solve the problem that comes before qualification: finding the businesses in the first place.

LET'S CONNECT

About EMC Research

- ▶ **Majority women-owned** opinion research firm founded in 1989
- ▶ 36 years of quantitative and qualitative opinion research for government agencies, nonprofits, political campaigns, and private entities
- ▶ Experience working with several of the participating transportation agencies (MTC, SFMTA, Caltrans, AC Transit, SamTrans, Caltrain, and Alameda CTC).

Community & User Research

We conduct in-depth studies to understand communities and users, delivering actionable insights to improve engagement and satisfaction.

Brand, Social Marketing & Behavioral Research

We help organizations develop stronger brands and social marketing strategies through targeted behavioral research.

Public Affairs Research

Our expertise in public affairs and issue advocacy research informs strategic efforts to shape policy and public opinion.

Campaign & Voter Research

With advanced campaign and voter research services, we empower political candidates and organizations with accurate voter insights.

Data Analytics

We leverage cutting-edge data analytics to uncover meaningful insights and optimize communications targeting.

EMC CA Analytics: Government & Taxes Personas

Active Government Advocates (32%)

High trust and optimism; believes in big spending and broad actions to solve problems

Public Services Loyalists (26%)

Mostly trust government; support taxes to fund improvements

Value Driven Pragmatists (14%)

Skeptical, budget-minded; back taxes only for tangible benefits

Fiscal Moderates (13%)

Cost-of-living stressed; situational support for spending when effective

Anti-Government Minimalists (15%)

Most distrustful; most deregulation-oriented and pessimistic

Thank You!

Who We Are + What We Do

Who We Are

KARA Consults is a certified Small Business Enterprise (SBE) specializing in project controls for complex construction and engineering projects.

We bring 25+ years of hands-on experience supporting projects from \$10M to \$1B+, with experience across infrastructure, utilities, energy, life sciences, commercial construction, healthcare, and transportation.

What We Do

We help project owners, agencies, contractors, and consultants maintain visibility and control over schedule, cost, risk, and project performance.

We help to identify project issues and address them before they become major delays or cost impacts.

Every construction project has its unique DNA.

Services & Expertise

- Construction CPM Scheduling
- Project Controls & Reporting
- Project management/PMO support
- Cost Control & EVM
- Schedule & Cost Risk Analysis
- Delay Analysis & Constr. Claims
- Change control/ What-If Analysis
- NAICS: 541611
- UNSPSC: 80101600, 80101606, 80101604

Why it matters + how to connect with us

Why It Matters

Better project controls create earlier visibility, better decisions, and more predictable outcomes.

KARA helps project teams identify schedule and cost risks early, measure performance objectively, forecast impacts, and develop practical mitigation strategies helping protect budgets, milestones, and stakeholder accountability.

Fit for Agencies & Primes

- Certified SBE
 - Specialized Project Controls Expertise
 - 25+ Years Experience
 - PMP/PSP/CCP/Primavera P6 Experts
- KARA can support primes and public-sector teams as a specialized project controls partner, including opportunities where small-business participation is important or additional scheduling, cost, risk, and controls expertise strengthens the overall project team
